free/be/see/me [high] The '-ee' open-vowel cluster ('wanna be free / can't you see / here with me') is AI's easiest sing-along rhyme

game/name [high] The -ame family is the model's success vocabulary: 'in the game', 'rise to fame', 'make a name', 'bring the fl

glory/story [high] 'This is my story / rise to glory' is the model's default arc-summary couplet; both nouns are abstract triumph

grace / embrace [high] Both words are Suno-wiki-named clichés AND a default rhyme pair; the model reaches for 'grace/embrace' because

grind/mind [high] The grind theme cluster (grind/shine/time/mind) is an AI attractor; grind/mind pairs hustle-platitude with mot

grind/shine [high] Caps the grind-to-reward arc the model loves ('I grind so I can shine'); 'shine' is the LLM's default success

heart/apart [high] Cited alongside fire/desire as the archetypal exhausted rhyme. AI reaches for it because 'heart' is the most f

heart/part [high] The shortest, most generic member of the heart-family rhymes; flagged in pop-cliché lists for decades and now

heart/start [high] Twin of heart/apart for the 'new beginning' verse; AI reaches for it because 'start' is the easiest perfect rh

hold/cold [\[high\]](#) Touch-deprivation cliché ('no one to hold / the bed is cold'); AI maps the absence of an embrace to literal te

hustle/muscle [\[high\]](#) A perfect two-syllable rhyme that pairs the two flattest grind-rap nouns, so the model fuses 'I'm on my hustle

kiss/bliss [\[high\]](#) The default romantic-peak rhyme; 'bliss' is AI's top abstract-joy noun and exists in lyrics almost solely to r

love/above [\[high\]](#) A perfect-rhyme trap that forces unnatural celestial imagery ('sent from above') to justify it. AI takes the b

love/dove [\[high\]](#) A rhyme so notoriously hacky it's a punchline; AI still produces it because it's a perfect rhyme for the near-

money/honey [\[high\]](#) The most worn rap couplet in existence; an LLM reaches for it because it's the highest-probability rhyme for '

night/fight [\[high\]](#) The default metal/rock anthem rhyme; pairs the genre's two most generic nouns. Its appearance signals the AI r

night/light [\[high\]](#) The -ight family is the model's darkness-to-hope engine: 'through the night', 'see the light', 'win the fight'

night/light/sight/right/fight [\[high\]](#) The -ight family is the densest cheap-rhyme cluster in English; AI cycles through all five within a single s

pain/chain [\[high\]](#) Bridges the struggle-noun 'pain' to the flex-noun 'chain', letting the model pivot from hardship to wealth in

pain/gain [\[high\]](#) Direct lift of the gym proverb 'no pain no gain' into bars; the model treats 'pain' as the canonical struggle-

rain / pain [\[high\]](#) Weather-as-emotion is the model's go-to figurative move; pain/rain (plus 'sunshine after rain') is a sentiment

shadow/echo [\[high\]](#) Not a true rhyme but a paired-imagery tell; 'shadows' and 'echoes' are AI's two favorite atmosphere nouns (cal

sky / fly / high [\[high\]](#) The elevation rhyme cluster (sky/fly/high/why) that auto-assembles around 'soar' and 'rise'; its co-occurrence

sky/fly [\[high\]](#) The -y aspiration family (sky/fly/high/try/why) is a massive AI attractor shared with pop. 'Touch the sky', 'I

soul/control [\[high\]](#) Abstract-on-abstract rhyme with no concrete image; AI loves it because both words are emotionally weighty and

soul/whole [\[high\]](#) AI's single most predictable lyric rhyme: 'soul' resolves to 'whole' (made me whole / heart and soul). It's th

stay/way [\[high\]](#) Top '-ay' cluster pairing; 'find a way' plus 'please stay' are both AI filler phrases, so the rhyme writes its

streets/beats [\[high\]](#) Self-referential filler the model loves: 'from the streets' (authenticity claim) + 'on these beats' (meta rap-

strong/belong [\[high\]](#) Belonging-anthem default; AI rhymes resilience ('stay strong') with acceptance ('where I belong'), the backbon

survive/alive/thrive [\[high\]](#) The full survival cluster; AI stacks all three in resilience songs, a tell that it's chaining the densest moti

tears/fears [\[high\]](#) Stacks two abstract emotion nouns into a tidy perfect rhyme; appears in almost every AI vulnerability verse wi

tears/years [\[high\]](#) Pairs crying with the passage of time ('all these tears / wasted years'); cited in forums as narrowing imagery

time/rhyme [\[high\]](#) Self-referential filler where the lyric rhymes the word 'rhyme' to admit it needed a rhyme; AI uses it to pad

all/fall [\[medium\]](#) Community posts specifically cite the 'all/fall' loop as a repetition-heavy AI tell ('give it all / watch me f

alone/unknown/stone/home [\[medium\]](#) AI's isolation cluster ('all alone / the great unknown / heart of stone / find my way home'); stacks its favor

arms/harm [\[medium\]](#) AI's default 'safe in my arms / away from harm' protector rhyme; near-rhyme glue for a stock comfort sentiment

around/found [\[medium\]](#) Search-and-find love rhyme ('looked all around / then you I found'); the inverted syntax to land the rhyme ('t

baby/maybe/lately/crazy [\[medium\]](#) Named in songwriting-cliché lists (baby/lately); AI overuses 'baby' as a syllable-filler address term and slan

believe/leave [\[medium\]](#) AI's default 'I can't believe you'd leave' rhyme; pairs trust with abandonment, a tidy perfect rhyme deployed

block/glock [\[medium\]](#) A documented top collocate-rhyme in rap that the model reproduces as its default street-danger couplet; it pai

brain/insane [\[medium\]](#) Another -ain(e) family default; 'insane' is the model's catch-all intensifier for skill ('my flow is insane')

break/mistake [\[medium\]](#) Default regret rhyme for AI apology songs; multisyllabic and generic, fits any relationship without detail.

break/take [\[medium\]](#) Generic conflict rhyme ('heart you break / love I take'); AI pairs the two highest-frequency verbs that perfe

breathe/leave [\[medium\]](#) Slant rhyme for codependency lines ('can't breathe / when you leave'); AI equates a partner with oxygen as a s

cash/fast [\[medium\]](#) The -ast family welds wealth ('stack the cash') to speed/longevity ('live it fast', 'built to last'). 'Built t

chains/remains/veins/pains [\[medium\]](#) AI's default 'breaking chains / through my veins / what remains / numbing pains' cluster for intensity verses;

cold/gold [\[medium\]](#) Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

crazy/amazing [\[medium\]](#) AI's default 'you drive me crazy / you're so amazing' slant rhyme; two of its most overused emotion adjectives

crazy/baby [\[medium\]](#) Stock pop slant-rhyme leaning on the filler word 'baby'; AI uses it as an easy chorus couplet. The reliance on

crown/down [\[medium\]](#) 'Wear the crown / never back down' is a stock king-metaphor couplet; the model treats 'crown' as the default s

cry/high [\[medium\]](#) Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

cry/why [\[medium\]](#) Question-and-tears couplet ('all I do is cry / I don't know why'); AI pairs the rhetorical 'why' with crying t

day/away [\[medium\]](#) Generic '-ay' filler; AI cycles 'day/away/stay/way/play' within one song, a structural rhyme-cluster tell.

deep/keep [\[medium\]](#) Named in songwriting-cliché lists; AI's default 'love runs deep / forever keep' rhyme, two abstractions glued

die/high [\[medium\]](#) Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

die/sky [\[medium\]](#) Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

down/town/around/crown [\[medium\]](#) AI loops the '-own/-ound' cluster ('falling down / leaving town / spin around') for easy filler; the repetitiv

dream/scheme [\[medium\]](#) AI pairs ambition ('chase your dream') with a forced 'scheme' that rarely fits the positive tone; the awkward

dream/seem [\[medium\]](#) A vague, filler-laden rhyme ('not as easy as it seems') that AI deploys to pad verses without committing to im

dream/team [\[medium\]](#) Default hype/anthem rhyme; AI uses it for any 'us against the world' verse with no concrete imagery.

dreams/beams [\[medium\]](#) Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

dreams/seams [\[medium\]](#) Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

emotion/ocean [\[medium\]](#) Feelings-as-water cliché with a clean three-syllable rhyme; AI equates depth of emotion with an ocean so relia

essence/presence [\[medium\]](#) AI pairs two of its favorite content-free abstractions as a rhyme ('your essence / your presence'). Both are v

eyes/cries [\[medium\]](#) Combines the overused 'eyes' image noun with crying; a tight perfect rhyme AI grabs for any tearful verse.

eyes/disguise [\[medium\]](#) AI's go-to for any 'hidden truth' verse; 'disguise' is its top multisyllabic perfect rhyme for the omnipresent

flame/game [\[medium\]](#) Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

flow/glow [\[medium\]](#) The -ow family clusters meta-rap ('my flow') with growth-platitudes ('watch me grow', 'I glow'); 'glow up' and

forever/endeavor [\[medium\]](#) AI reaches for the unusually formal 'endeavor' to rhyme 'forever,' a register mismatch in a pop lyric that bet

free/me [\[medium\]](#) Default liberation rhyme; pairs the abstract 'free' with the self, no concrete cage or scene, pure AI uplift f

game/same/name/flame [\[medium\]](#) AI chains the '-ame' cluster ('play the game / feel the same / call my name / an eternal flame'); flagged in s

girl/world [\[medium\]](#) The model's go-to for 'you're my everything' choruses; one of the most overused rhymes in its output.

glow/flow/grow/know [\[medium\]](#) The long-'-ow' cluster is an AI filler goldmine ('let it flow / start to grow / now you know'); cycling severa

gold/soul [\[medium\]](#) Near/slant rhyme AI treats as perfect, used to assert worth ('heart of gold / ancient soul'); the pairing lean

grace/place/face [\[medium\]](#) -ace cluster common in generated worship/ballad lyrics ('amazing grace / a better place / see your face'); cha

hand/understand [\[medium\]](#) Comfort rhyme ('take my hand / I understand'); flagged in forums as a worn couplet, AI deploys it for any reas

hand/understand/stand/land [\[medium\]](#) AI chains the '-and' cluster ('take my hand / you understand / together we stand'); 'understand' is its top mu

heart/spark [\[medium\]](#) Spark-and-heart is a top-probability emotion rhyme; its mechanical recurrence signals rhyme-dictionary complet

high/sky [\[medium\]](#) Companion to sky/fly — 'reaching so high / touching the sky' is AI's elevation cliché. Two near-identical vowe

hold/gold [\[medium\]](#) 'Worth more than gold' is a generated-lyric staple; AI grabs 'gold' as its default value metaphor to rhyme 'ho

hold/old [\[medium\]](#) Default 'grow old together' rhyme; AI's most-produced aging-love couplet, generic and detail-free.

hood/good [\[medium\]](#) 'From the hood / turned out good' is a stock redemption couplet; the model uses 'the hood' as a generic origin

kiss/miss [\[medium\]](#) AI's default longing rhyme ('your kiss / how I miss'); two ultra-common words, no image, endlessly recyclable

knees/please [\[medium\]](#) Begging-posture rhyme ('down on my knees / baby please'); cited in forums among modern R&B/pop clichés, AI use

love/above (or dove) [\[medium\]](#) Explicitly cited in AI-cliché writeups: 'love' paired with 'above' or 'dove.' One of the oldest forced rhymes

mind/find [\[medium\]](#) Inner-search rhyme ('searching my mind / peace I can't find'); AI's default for a contemplative bridge. Both w

neon/dream [\[medium\]](#) AI pairs the cliché image 'neon' with the equally generic 'dream' because both are high-frequency and slant-rh

night/alright [medium] AI's stock reassurance rhyme; 'through the night / be alright' arrives as a pre-formed comforting couplet with

night/light/fight/right [medium] The '-ight' family (night/light/fight/right/alright/tonight) is the workhorse of AI empowerment choruses; sour

pain/again [medium] Slant rhyme AI treats as clean, used for cyclical-suffering lines ('here comes the pain / again and again'); t

power/hour [medium] 'Feel the power' + 'finest hour' (plus 'ivory tower', 'money shower') — the -ower family inflates ordinary bra

pride/inside [medium] Hidden-feeling rhyme ('swallow my pride / what's deep inside'); AI's default for vulnerability verses. 'Deep i

real/deal [medium] 'The real deal' is a frozen idiom the model unpacks across two rhyme positions; like real/feel it asserts legi

rise/eyes [medium] Empowerment-meets-imagery rhyme ('watch me rise / open your eyes'); AI's reflex for a triumphant turn. The 'op

rise/skies [medium] Default phoenix/uplift rhyme ('I will rise / to the skies'); AI's go-to triumphant-chorus pairing, abstract an

river/forever [medium] One of AI's most predictable country rhymes, jamming an eternal-love abstraction ('forever') against the genre

Saturday night/holy light [medium] AI reaches for the sin-and-salvation rhyme to sound thematically 'country.' The forced 'holy light' to rhyme '

sea/me [medium] AI rhymes vast water with the self for scale ('deep as the sea / a part of me'); like sea/free and sea/be, 'me

seams/beams [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

shadows/tomorrow [medium] A forced slant rhyme the model favors because 'shadows' (a top mood word) needs a partner; 'tomorrow/sorrow' g

shame/blame/game [medium] A three-way -ame cluster AI strings together in accusatory verses ('not my shame / take the blame / play your

shine/divine/define [medium] AI's radiance cluster ('let it shine / love divine / you define'); 'divine' is a register-spiking filler rhyme

sky/fly / sky's the limit [medium] sky/fly/high powers the model's aspiration choruses, and 'the sky's the limit' is the matching idiom. Forums f

sky/high / fly/high [medium] Default 'aspiration' rhyme that pulls in flight/soaring imagery. AI uses it for any uplift moment, so it signa

sorrow/tomorrow [medium] Despair-meets-hope rhyme ('drowning in sorrow / brighter tomorrow'); AI's formula for a verse-to-chorus mood p

soul/goal [medium] The -ole family is the model's introspection engine: 'deep in my soul', 'reach my goal', 'take control', 'make

streets/heat [medium] Pairs the authenticity claim 'the streets' with 'heat' (the model's PG-safe slang for a gun or for being 'hot'

strong/long [medium] Default empowerment-anthem rhyme ('stay strong / all along'); AI's go-to for motivational verses, generic and

strong/wrong [medium] The -ong family fuels resilience-platitudes: 'stay strong', 'all along', 'prove them wrong', 'where I belong'.

stronger/longer [medium] The default rhyme that powers 'made me stronger' empowerment choruses (stronger/longer/no longer). Its inevita

sun/one [medium] Devotion rhyme equating the beloved with the sun and 'the one' ('you're my sun / you're the one'); AI's stock

throne/own [medium] Continues the king/throne attractor; 'sit on the throne' + 'do my own' fuses royalty-flex with independence-pl

time/climb [medium] Default 'journey/struggle' rhyme; AI maps progress onto 'climb' reflexively, often with the cliché 'mountain t

time/grind [medium] Slant pairing inside the grind cluster ('it's my time' + 'on my grind'); both are motivational-poster phrases.

time/mine [medium] Default possession/longing rhyme; the model selects 'mine' as the top rhyme for 'time', yielding the recurrent

town/down [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

trap/cap [medium] The model bolts two pieces of dictionary-acquired slang together ('in the trap' + 'no cap') because both are h

truck/luck [medium] Country-specific lazy rhyme: AI keeps the mandatory 'truck' token in the rhyme slot and reaches for 'luck'/st

trust/dust [medium] 'Can't trust' + 'bite the dust' — the -ust family delivers the model's loyalty-and-betrayal theme in frozen id

war/more [medium] The -or(e) family pairs conflict ('ready for war') with ambition ('want more', 'open doors', 'settle the score

whiskey/misty [medium] A slant rhyme AI forces to keep 'whiskey' in the chorus, dragging in 'misty(-eyed)' emotion vocabulary. The pa

world/unfurled [medium] AI reaches for the archaic 'unfurled' to rhyme 'world,' a register spike in a pop lyric that exposes vocabular

years/fears [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

you and me / eternity [medium] Commitment rhyme that overreaches scale ('eternity') for a simple sentiment; AI grabs it because 'eternity' is

you/true [medium] Among the highest-probability rhymes in English; Suno's default for devotion lines, signaling no editing.

be/me [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

be/see [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

believe/receive [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

chains/remains [low] Bondage-and-freedom rhyme ('break these chains / nothing remains'); AI reaches for 'chains' as the stock metap

electric/hectic [low] Forced multi-syllable rhyme AI reaches for to sound clever; the pairing is unnatural in real speech and expose

endless/relentless [low] AI pairs two '-less' intensity adjectives for faux-epic scale; both are vague magnitude words that exist to rh

free/see [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

gold/untold [low] AI pairs 'gold' value imagery with 'stories untold' mystery filler; both are stock abstractions, producing pre

ground/sound [low] Self-referential music rhyme ('feet on the ground / feel the sound'); AI's default for a beat-drop or groundin

heartbeat/repeat [low] Dance-specific rhyme welding body-pulse imagery to the music; AI pairs them because both are high-frequency da

heaven/seven [low] AI grabs the awkward 'seven' to rhyme 'heaven' for lack of alternatives, often producing nonsensical lines — a

leave/receive [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

see/me [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

shadows/follows [low] Slant rhyme for haunted-past verses ('out of the shadows / something follows'); AI's go-to for ominous atmosph

sky/why [low] Skyward-questioning rhyme ('staring at the sky / asking God why'); AI's stock for an existential bridge. The u

tease/please/ease/breeze [low] AI's smooth--ease' cluster ('summer breeze / put your mind at ease / aim to please'); soft open-vowel rhymes

veins/flames [low] Body-as-fire slant rhyme ('fire in my veins / fanning the flames'); AI's go-to for visceral-passion lines, dou

young/done [low] Slant rhyme for youth-nostalgia verses ('when we were young / before it was done'); AI's default for a wistful

Chains and Lambos / foreign whips ^[medium] Stock luxury-prop checklist (chains, Lambos, foreign cars) with no specific model, color, or moment; AI assem

chasing shadows / running from the dark ^[medium] Shadow/darkness as a pursued or pursuing threat is an AI default for fear and avoidance; the abstract 'shadows

chasing the light at the end of the tunnel ^[medium] A double-stacked cliché (light + tunnel) AI uses to signal 'things will get better'; the prefab idiom replaces

climbing the mountain / reaching the summit ^[medium] AI's default 'struggle as physical ascent' arc; the mountain stands in for any goal, so the climb is generic e

Coming home / 'finding my way back home' ^[medium] 'Home' as an abstract destination of belonging is an AI-default closure theme. Home is emotional and placeless

dancing in the rain ^[medium] The 'finding joy amid hardship' image AI reuses constantly; rain (sorrow) + dancing (joy) is a tidy paradox th

Dawn of a new day / 'today is the first day of the rest of m ^[medium] Fresh-start-at-sunrise is a default reinvention theme stitched from motivational-poster language. The new begi

Diamonds shining / ice on my wrist ^[medium] Default flex imagery defaulting to diamonds/ice with no brand, story, or specificity; AI reaches for the most

Drinking to forget / 'whiskey and your memory' ^[medium] The barroom-heartache frame (whiskey/bottle/bar to numb a breakup) is a default country/blues sad theme. It's

Drowning / 'in over my head, can't breathe' ^[medium] Water-as-overwhelm (drowning, waves crashing, going under) is the model's default metaphor system for anxiety

drowning in my sorrows / tears ^[medium] AI literalizes sadness as drowning so reflexively that 'drowning in tears/sorrow' is the default grief image,

facing my fears head-on ^[medium] Generic courage beat with the stock intensifier 'head-on'; the fear is left abstract, which is what marks it a

Fight for love / 'I'll cross oceans for you' ^[medium] Grand-gesture devotion ('cross oceans,' 'climb mountains,' 'walk through fire for you') is a default love-inte

finding my voice ^[medium] AI's stock metaphor for self-expression/empowerment; the abstract 'voice' lets the model claim a growth arc wi

finding my way back home ^[medium] The 'journey home' as resolution is an AI structural default; 'home' is an abstract emotional destination, nev

Ghost of you / 'haunted by your memory' ^[medium] Post-breakup haunting (ghosts, echoes, your shadow in every room) is a default lingering-loss theme. It pairs

hail Satan / serve the dark lord ^[medium] Loudwire/Invisible Oranges note Satan has become metal's most pervasive cliché; AI reproduces stock satanic im

Healing / 'learning to love myself again' ^[medium] Therapy-speak self-recovery is an increasingly default AI theme that maps onto current wellness vocabulary. Th

holding up my shield / armor on ^[medium] AI literalizes emotional defense as medieval combat gear (shield/armor), a grandiose physicalization of a feel

In the booth / spitting fire / drop bars ^[medium] Rap-about-rapping filler ('in the booth,' 'spit fire,' 'drop bars'); AI describes the act of rapping as a stan

Inner strength you had all along ^[medium] The 'the power was inside you the whole time' resolution is a closed, self-justifying arc the model loves beca

Invincible / 'nothing can stop me now' ^[medium] Peak-confidence anthems ('unstoppable,' 'bulletproof,' 'nothing can stop me') are a default empowerment frame.

journey-as-life trope ^[medium] Framing struggle as 'my journey / the road I've walked / this path' is the model's go-to growth metaphor (note

king/legend/GOAT self-coronation, no rivals [medium] The model crowns the narrator 'king', 'legend', 'the GOAT', 'on the throne' as abstract status claims without

Letting go / 'I'm setting you free' [medium] The graceful-breakup theme where the narrator nobly releases the other person is an AI default for mature hear

light and dark / good and evil [medium] Communities cite light/dark and good/evil as metal's most overused universal imagery; AI loves these binaries

light/dark binary as whole theme [medium] The model structures emotion as light-vs-dark (out of darkness into light, fighting the dark, chasing the light)

Lighting up the sky / 'we'll burn so bright, like fireworks' [medium] The 'we shine, we burn, we light up the night' anthem frame is a default empowerment-pop concept. Fire/firewor

Living in the moment / 'tonight we're young and free' [medium] The YOLO/anthemic-pop 'tonight we own the night, forever young' frame is a default party-uplift theme. It cele

Love as salvation / 'you saved me' [medium] AI reaches for the 'you rescued me from my darkness' frame as the default deep-love statement. It's grandiose

Mama told me / for my mama (generic) [medium] Sentimental mother-reference inserted for emotional weight; AI uses a generic 'mama' beat (made it for mama, m

Map / compass / 'finding my way' journey metaphor [medium] Life-as-a-journey with literal maps, compasses, crossroads and 'finding my way' is the model's default arc for

missing piece / completes me [medium] The 'you complete me' template; AI gravitates to it because it's the canonical way to express need, making the

phoenix rebirth trope [medium] Whenever a prompt mentions recovery or comeback, AI reaches for the phoenix/ashes myth. It's an overdetermined

phoenix/wings/soar comeback imagery [medium] The model's default comeback imagery is flight — phoenix from ashes, spreading wings, learning to fly, soaring

Pray to God / thank the Most High (generic) [medium] Boilerplate gratitude-to-God beat dropped in to sound grounded; AI inserts safe, non-specific faith language a

raising my fist to the sky [medium] A stock gesture AI inserts as visual shorthand for defiance/triumph; the raised-fist image is a prefab body-po

Reaching for the stars / 'the sky's the limit' [medium] Ambition rendered as literal stargazing/sky-reaching is a default aspiration theme. 'Reach for the stars,' 'no

Rewriting my story / 'turning the page, new chapter' [medium] Life-as-a-book ('turn the page,' 'new chapter,' 'rewrite my story,' 'story unfolds') is a default reinvention

Riding for my team / squad / day ones [medium] Generic crew-loyalty beat invoking unnamed 'day ones/squad'; AI gestures at a tight crew it never individuates

setting my soul on fire / heart ablaze [medium] Passion-as-literal-fire is an over-default; 'soul on fire / heart ablaze' is reached for whenever intensity is

Small-town escape / 'getting out of this town' [medium] A reflexive Americana/country-pop frame: the narrator must leave a dead-end town for the city/highway. The tow

Soulmate / 'two halves of one whole' [medium] The cosmic-destined-love theme ('made for each other,' 'two halves complete,' 'written in the stars') is a def

spitting bars / killing the mic self-reference [medium] The model fills space by rapping about rapping ('spit these bars,' 'kill the mic,' 'drop the verse,' 'on the b

Standing in the rain / crying-in-the-storm catharsis [medium] Rain as externalized sorrow (standing in the rain, tears like rain, washed clean by the storm) is the model's

Star-crossed lovers / 'us against the world' [medium] The forbidden/embattled-romance frame ('they'll never tear us apart, it's you and me against everything') is a

Sun will rise again / 'after the rain comes the rainbow' [medium] Guaranteed-hope frames (sun rises, rainbow after rain, dawn after night, spring after winter) are the model's

tears (falling / crying) cluster [medium] The model defaults to literal tears/crying for any sadness ('tears fall like rain,' 'crying in the dark'); the

the fire inside / flame that won't die out [medium] An inner 'fire/flame that never dies' is AI's reflexive symbol for unkillable determination; the elemental ima

the journey / this journey [medium] The model frames any topic as 'a journey'; this default narrative scaffold ('it's not the destination, it's th

the masks we wear / taking off the mask [medium] Hidden-self-as-mask is AI's default authenticity metaphor; 'take off the mask to show the real me' is a comple

They know my name now [medium] Generic recognition-as-success beat; AI asserts newfound fame ('they know my name') without a scene or moment,

Time as a thief / 'where did the time go' [medium] AI personifies time slipping away ('time keeps slipping,' 'years fly by like sand') as a default meditation-on

Top of the game / king of the throne [medium] Generic crown/throne supremacy imagery; AI reaches for monarchy metaphors as default dominance signaling, with

Toxic-love drama / 'we're poison but I can't leave' [medium] The 'you're bad for me but I crave you' frame is the model's default for adult heartbreak intensity. It stays

Trust no one / can't trust nobody [medium] Generic paranoia/loyalty trope with no betrayer named; AI asserts distrust as a mood without the specific snak

unbreakable / can't be broken [medium] AI's blunt resilience assertion; declaring oneself 'unbreakable' tells rather than shows toughness, a hallmark

unstoppable / nothing can stop me now [medium] A blunt declarative AI uses to cap empowerment songs; asserting 'unstoppable / nothing can stop me' tells domi

Voice unheard / 'I'll scream until they hear me' [medium] Generic protest/defiance ('won't be silenced,' 'I'll make them hear my voice') is a default empowerment-rebell

walking through the fire / dancing in the flames [medium] Fire as a trial-to-survive is a top AI elemental default; 'walk through fire' arrives as an idiom-block signal

warrior / fighter (self-as-) [medium] Casting the narrator as a literal 'warrior/fighter' in a non-combat context is a default AI empowerment frame.

We are the ones / collective-uprising anthem [medium] The 'we are the dreamers/fighters/chosen, this is our time' crowd-anthem is a default mass-empowerment frame.

Wearing a mask / 'no one sees the real me' [medium] The hidden-pain-behind-a-smile theme is an AI default for portraying inner struggle. 'Mask,' 'smile to hide th

weather-emotion mapping (storm/sunshine/rain) [medium] The model maps feelings onto weather by default — storms for hardship, sunshine after rain for relief, thunder

weathering the storm [medium] AI almost always renders hardship as literal weather (storm/rain/thunder) because it's the most generic, emoti

Wildfire / 'a love that burns out of control' [medium] Passion rendered as fire/flame/burn is the model's default intensity metaphor for love. 'Burning,' 'flames,' '

win the war within [medium] Internal conflict rendered as a literal 'war within' or 'battlefield in my mind'; the war metaphor is AI's def

y'all / ain't / dropped-g forced dialect [medium] AI sprinkles surface dialect markers ('y'all,' 'ain't,' 'dropped-g 'lovin') unevenly to fake a country voice,

You're not alone / 'I'll be there for you' [medium] The reassurance ballad ('whenever you fall, I'll catch you, you're not alone') is a default AI comfort theme.

American-flag / red-white-and-blue patriotism tag [low] AI bolts on flag/freedom imagery to certify mainstream country identity. It arrives as a decorative value-sign

breaking the mold [low] AI's default nonconformity idiom; 'break the mold' asserts uniqueness via a worn phrase, ironically proving th

Dancing through the pain / 'we dance like nobody's watching' [low] Joy-as-defiance ('dance away the sorrow,' 'lose ourselves on the floor') is a default uplift-pop concept. The

Faith / 'guardian angels watching over me' [low] AI defaults to soft, denomination-free spirituality (angels, the heavens, a guiding light) as comfort scaffold

Frozen / numb to the world [low] Emotional numbness rendered as cold/ice/frozen ('frozen inside,' 'numb to it all,' 'cold as stone') is a defau

Glow up / 'look at me now, I've changed' [low] The transformation-flex ('I've changed, I'm better, look at me now') is a default empowerment theme aimed at a

holding shields [low] Flagged by American Songwriter, songwriting blogs and Suno community discussion as a canonical AI uplift/empow

Last dance / 'one more night before goodbye' [low] The bittersweet-final-moment frame ('one last dance, one more night, before it all ends') is a default farewell

Light it up / set the stage on fire [low] Generic crowd/performance hype imagery; AI defaults to 'fire/lights/stage' performance clichés that describe t

oh-oh-oh / whoa-oh chant filler [low] AI pads hooks with vowel-chant placeholders when it has no lyric. In country generations these stand in for an

painting the sky with my colors / true colors [low] AI's stock self-expression image conflates identity with 'colors'; 'show my true colors' / 'paint the sky' is

second person 'you' with no real addressee [low] AI love/loss songs address an abstract 'you' that has no traits or history, because the model never invents a

silver lining in the clouds [low] A proverb-cliché AI deploys for forced optimism; quoting the idiom whole replaces any specific reason for hope

the journey of a thousand miles [low] A proverb AI quotes whole to frame effort; importing the famous maxim signals reliance on stored aphorisms rat

TEMPLATE (71)

' ____ of the night' opener [high] 'In the dead of night' and its variants are instant Suno tells.

'a [soft/wry/known] [smile/glance]' [high] Warm adjective on a small physical action — AI fiction/roleplay fingerprint.

'a breath [he/she] didn't know [they] were holding' [high] Notorious Claude/AI fiction beat.

'a smile plays across their lips' [high] Stock AI-fiction facial beat.

'break the chains' [high] Default freedom/liberation image.

'breath hitched / heart hammered / pulse quickened' [high] Stock AI physiological-reaction beats.

'chasing the ____' [high] 'Chasing ____' aspiration mad-lib; one of Suno's most repeated frames.

'dancing in/with the ____' [high] Archetypal generic Suno image ('dancing in the moonlight').

'feel it in my soul/bones' [high] Tell-don't-show emotion phrase.

'fire in my soul/veins' [high] Passion-as-fire-in-the-body cliché; fully generic.

'heart(s) on fire' [high] Dead-on-arrival passion image.

'in today's fast-paced/digital world' [high] The single most parodied AI essay opener.

'isn't merely... it's...' [high] Same elevation tic in negative form; classic LLM closing-paragraph move.

'it's important/worth to note' [high] Filler hedge that announces nothing; one of the strongest AI prose tells.

'it's not about X, it's about Y' [high] Pseudo-deep reframing template the model reaches for to manufacture insight.

'let's dive/delve into' [high] 'Dive/delve in' is a canonical ChatGPT transition.

'light in the dark(ness)' [high] Hope-in-darkness cliché.

'lost in the ____' [high] Default transcendence line with an interchangeable object.

'navigate the complexities/landscape' [high] 'Navigate' + abstract noun is a studied ChatGPT focal-word pattern.

'navigating [grief/complexity]' [high] 'Navigate' + abstraction — a studied ChatGPT focal pattern.

'never let you go' [high] Top-tier love-song filler.

'not just X, but Y' elevation [high] The signature AI inflation frame ('not just a tool, but a revolution'). Sets up a fake contrast to sound profo

'quirks an eyebrow' / 'tilts head' [high] AI roleplay body-language defaults.

'rise from the ashes' [high] The canonical AI resilience trope (phoenix/ashes).

'shiver(s) down [his/her] spine' [high] The single most parodied AI-fiction sensation beat.

'tears like rain' [high] Tears/rain simile is maximally overused.

'the architecture/geometry of [abstraction]' [high] Pretentious 'the [science] of [feeling]' — a strong AI essay/poetry tell.

'two hearts beat as one' [high] Union cliché.

'under the stars/moonlight' [high] Default romantic set-dressing.

'unlock the power/potential' [high] Marketing-AI staple; 'unlock' + abstract-noun is mode-collapse hype.

'what remains unspoken / what we carry' [high] Abstract 'what we carry' gravitas filler.

'with every ____' [high] Verse Nurse flags 'with every ____' as a top Suno mad-lib opener; the blank is filler.

Claude: 'I want to be direct / let me be honest' [high] Claude's signature framing move.

Gemini: 'here's a breakdown / what you need to know' [high] Gemini's default list-dump opener.

negative parallelism 'not X, but Y' [high] AI's signature rhetorical frame — defines a thing by what it isn't to sound profound.

Perplexity: 'According to a [year] report by' [high] Perplexity's formulaic citation attribution.

Perplexity: 'based on the search results / available informa' [high] Perplexity/RAG answer-opener.

self-posed question, instant answer ('The result? Devastatin' [high] Asks a tiny rhetorical question and answers it in one punchy word for fake drama.

triadic abstract list ('the grief, the silence, the forgetti' [high] Three abstract nouns as 'the X, the Y, the Z' — a top AI-poetry tic.

triadic negation 'No X. No Y. Just Z.' [high] Punchy negative-parallelism the model loves for taglines.

'(there is) a particular kind of' [medium] Essayistic throat-clearing opener.

'a mixture/mix of [x] and [y]' [medium] AI's default way to describe an expression/emotion.

'at the end of the day' [medium] Dead-metaphor summarizer.

'deep inside/within (my soul)' [medium] Interiority padding the model adds to inflate a line.

'drowning in ____' [medium] Overwrought emotion-as-water cliché.

'for a (long) moment' [medium] Temporal hedge that signals 'feel something here'.

'grow/bloom through the cracks/concrete' [medium] Resilience-through-adversity nature image.

'here's the thing/kicker' [medium] Faux-conversational pivot the model inserts for rhythm.

'hold me close/tight' [medium] Default intimacy request.

'imagine a [x] where [y]' [medium] Hypothetical-world opener.

'in a world where' [medium] Movie-trailer opener the model uses to set false stakes.

'in the quiet/silence/dark' as a place' [medium] Absence-as-setting; AI loves naming negative space.

'just [breathe/stay/be]' closer' [medium] Minimalist closing line for cheap emotional weight.

'living rent-free in [my] head' [medium] Worn-out internet phrase.

'more than just' [medium] Lead-in to the elevation frame; high-frequency AI hype connective.

'set the night/world on fire' [medium] Generic party/passion hyperbole.

'sit with (this feeling/the discomfort)' [medium] Therapy-register AI phrase.

'something about (the way)' opener' [medium] Hedged-mystery opener.

'somewhere between [x] and [y]' [medium] Liminal-positioning cliché.

'take it to the next level' [medium] Empty escalation cliché.

'The goal? / bottom line?' self-answer' [medium] Tiny rhetorical question answered instantly — marketing-AI tic.

'the kind of [noun] that [verb]' [medium] Vague-specific framing that sounds insightful while committing to nothing.

'the only thing that mattered' [medium] AI emotional-absolutism beat.

'the way [x] [does something]' opener' [medium] Reverent 'the way light falls / silence holds' opener — pure mood, no content.

'whether you're a... or a...' [medium] Fake-inclusive audience hedge; pads without committing.

ad-lib filler (na-na / oh-oh / yeah-yeah) [medium] Default vocable filler Suno drops in to pad a chorus.

game-changer / game-changing' [medium] Inflated novelty claim.

present-participle opener ('Standing there, she...') [medium] '-ing ..., she' sentence opener used as a default cadence.

rhetorical hook opener' [medium] Manufactured engagement opener; AI defaults to a rhetorical question to feign a hook.

single-word sentence for gravity ('...tired. Hollow.') [medium] A lone word as a full sentence for emphasis.

'from X to Y,' merism opener' [low] Sweeping 'from A to B' range-claim that sounds comprehensive while saying little.
