Action steps: How to stay ahead of the curve [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Activate to bring the partnership to life [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Activate: Build the Multi-Channel Campaign [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Activates the sequence [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Activation and event invitations [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Active audience feedback [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Active plot tracking across chapters [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 2).

Active verbs and minimal description [medium] Overused AI term catalogued from the 'mystery thriller' census sweep (source count 1).

ActiveCampaign AI Features [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Actively seek corrections and updates [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Activities that Can Improve Your Well-Being [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 2).

Activity API for MCP-accessible reporting [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Ad copy & PPC campaigns [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Ad copy + captions [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Ad management integration [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Ad phrases and naming [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Ada Health: Best for understanding your health [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Adam's apple bobbing [medium] AI stock nervous/tension marker; overused physical beat flagged in RP lists.

Adapt Content for Different Platforms [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Adapting Content for Multiple Platforms [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Adapting copy across formats and channels [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Adapting to rapid technological evolution [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

ADAS Liability Topics [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Add "last updated" dates visibly [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Add 10–12g more protein for stable energy [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Add any breaking developments since initial draft [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Add APA Citations [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Add Citations to Article [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Add Clear References to Urgency [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Add Depth to Characters [medium] Overused AI term catalogued from the 'mystery thriller' census sweep (source count 1).

Add expert quotes and credentials [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Add FAQ schema for question-answer content [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Add Footnotes from Bibliography [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Add graphics from multiple places [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

add insult to injury [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Add ItemList schema [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Add menus or service details [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Add References with Links [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Add Reflection Lines to 120-Day Manuscript [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Add SEO-Friendly FAQ [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Add specific details about your product [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Add specific details and current references [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Add the MCP server to Claude Desktop or Cursor [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Add to Collection Build shareable stack [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 2).

Add website pages [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Adding interactive Story stickers [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Adding internal links where possible [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Adding photos to text posts [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Additional bedrooms and baths [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Additional GEO Metrics [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Additional Google services [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Additional info required [medium] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Additional SEO prompts [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Address availability, location and booking concerns [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Addressing motivation challenges [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Adds latency vs. direct provider calls [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Adds OOC and compliance notes, premium tier [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Adjacent fields: AI in media beyond news [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Adjust Content and Strategies [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Adjust content plan for next month [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Adjust posting times or hashtags if reach is flat [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

adjust your strategy accordingly [medium] Formulaic empty advice-closer typical of AI how-to content.

Administrative and Operational Tasks [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Administrative time savings [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Adobe Express – Quick social graphics [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Adobe Stock – Premium options [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Adopting the Gender Binary [medium] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Ascend to a Higher Plane of Existence [medium] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Ask a Question [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Ask follow-up questions for context [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Ask for a plain-language summary only [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Ask for advice, consult, learn from someone [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Ask for Meal Plans, Not Just Single Recipes [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Ask for reviews at the peak of client excitement [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Ask for reviews at the right moment [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Ask for What You Want [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Ask how quick wins connect to long-term goals [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Ask Nolan AI [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Ask when the topic will be revisited [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Ask within 24-48 hours while the visit is fresh [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Ask your agent to post [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Aspirational identity language [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Aspiring digital nomads [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Aspiring location-independent travelers [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Aspiring Sci-Fi Authors [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Assess data quality and access [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Assess headline-content alignment [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Assign Content Pillars to Days and Time Zones [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Assistant needs more explicit instructions [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Associated Press adopts automated earnings reports [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Associated Press automates earnings reports [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Assumptions and Limitations [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Astronomy: Cool Women in Space [medium] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

At a high level [medium] AI's abstraction frame; a human says 'basically' or 'broadly'.

At first blush [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

At its core [medium] Overused AI bridge phrase into explanation; distinctive multiword opener though humans use it sometimes.

At its core / In essence / Ultimately [medium] False-simplification connectors that signal a profound summary is coming but deliver vagueness; they're filler

At the forefront of [medium] Overused promotional phrase positioning a subject as a leader.

At the heart of [medium] A faux-profundity connective used to frame any topic as having a central essence; it sounds insightful but is

at the intersection of [medium] Go-to LLM construction for describing multidisciplinary backgrounds.

at this point in time [medium] AI padding for 'now'; a human says 'now' or 'right now'.

Atlantis: A sunken city of legend [medium] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Atlantis: Three Tales [medium] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Atlas and Boots [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Attempt an unrealistic task [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Attending an Open House (Post-Event) [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Attending climate protests as mindfulness-in-motion [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Attorney review still required [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Attorney review workflow [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Attorney signature and bar number automation [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 3).

Attribution modeling for ROI measurement [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

au cœur de [medium] Clichéd metaphorical opening used formulaically in AI French text

AudibleListen to Books & OriginalAudio Performances [medium] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Audience and trends analytics; story detection [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audience attraction and retention [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Audience engagement analysts [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audience segmentation and targeting [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Audience segmentation by reading habits [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audience segmentation for targeted engagement [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audience trust (2025) [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audience trust and satisfaction scores [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audience type (buyer, seller, investor) [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Audiences and user needs [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audio-synced cinematic video [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Audit & accounting [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Audit and clean all input data sources [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audit available data feeds and APIs [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audit datasets for bias and inaccuracies before use [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audit datasets for demographic and ideological bias [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audit existing content and data sources [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audit existing content for GEO readiness [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Audit support workflows quarterly [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audit trails for all editorial decisions [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audit trails of all editorial decisions [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audit trails, bias, and the fight for accountability [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audit your current workflow for automation potential [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audit your data sources and editorial policies [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Audits & subpoenas [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

auf ein neues Level heben [medium] German calque of 'take it to the next level'; clichéd marketing phrase in AI business writing

Aug 08, 2019 [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Aug 26, 2022 [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Aura Vision: Sensing people's auras [medium] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Authentic voice development [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Authenticity matters; robotic automation loses trust [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Authenticity, personality, casual tone [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Author Branding and Platform Building [medium] Overused AI term catalogued from the 'mystery thriller' census sweep (source count 1).

Author names large (Grisham-style prominence) [medium] Overused AI term catalogued from the 'mystery thriller' census sweep (source count 1).

Authority, clarity, factual accuracy [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Authors of color [medium] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Auto generation of monthly content calendar [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Auto-Generated Subtitles and Translations [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Auto-posting to major social platforms [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Auto-publish at best times [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Auto-schedule at the best time [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Auto-transcribe field interviews [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Autobiography & Memoir [medium] Overused AI term catalogued from the 'poetry' census sweep (source count 1).

Automate birthday offers to drive reservations [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automate email campaigns [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Automate manual processes with AI-powered e-billing [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Automate Posting with an API [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automate the stay-in-touch problem [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Automate your 6-month recall sequence and let it run [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automate Your Content Flow with Queues [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automate your lead nurture sequences [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automate Your Marketing to Boost Campaign Efficiency [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Automated (Always Running) [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automated + human review [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated + Manual [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated adherence to brand voice and style [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automated and consistent [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automated article flagging [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated Baggage Handling and Security [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Automated Booking and Travel Planning [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Automated cold email personalization [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automated collection and analysis of structured data [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated content creation [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated content, hybrid workflows [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated corrections and compliance checks [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated corrections and updates, building trust [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated drip by lead stage [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automated earnings reports [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 2).

Automated fact-checking and cross-referencing [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated fact-checking bots for live debates [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated insights and recommendations [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automated legal case summaries for lawyers [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated logging of decisions [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated multi-channel content workflows [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automated news feeds and real-time reporting [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated Newsroom (AI-driven) [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 2).

Automated obit mix-up [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated posting, basic recommendation [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated press releases for advocacy groups [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated publishing across platforms [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated reply suggestions for inbox management [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automated routine reporting, cost savings [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated source verification [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated sports scores error [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated stories, trend detection, content scaling [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated translation for global syndication [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated weather alerts with hyperlocal flair [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated "kill switches" for runaway algorithms [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automated, sometimes lax [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automates repetitive tasks, saving hours each week [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automatic activity insights [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Automatic capitalization and punctuation [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automatic format adaptation [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automatic format adjustments for each platform [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automatic pleading paper line numbering [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 3).

Automatic posting consistency (95-100% adherence) [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automatic retry logic [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Automatic signature block and certificate placement [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 3).

Automatically adapts to changing trends [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Automatically draws from sources you trust [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Automating tedious tasks [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Automation and Efficiency Gains [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Automation and Operations [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Automation and segmentation are lighter [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automation depth is limited [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automation management endpoints [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automation management via API [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automation not fully API-accessible [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automation templates available [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Automation workflows not fully API-accessible [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Autonomous and Artificial Appendage Index [medium] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Autonomous, real-time news feeds on social platforms [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

außerhalb der Box denken [medium] English 'think outside the box' literally calqued; native German idiom is 'über den Tellerrand'

Available for select languages [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Available via web, iOS, and Android [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Average accuracy (%) [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 2).

Average click rate: 4.8% [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Average commission savings with AI tools [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Average cost per article (USD) [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Average open rate: 38.2% (up from 35.1% last week) [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Average session duration [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 2).

Average speed (story turnaround) [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Average story delivery [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Average time on site [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 2).

Average time to publish (minutes) [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 4).

Avg days on market [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Common Traits of a Corporate Drone [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Common Triggers to Warn For [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Communicate to be understood, not to “sound smart [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Communicate with Clarity — Not Babble [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Communication and Alignment [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Communication made easy [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 2).

Community building and engagement [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Community challenges or games [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Community engagement focus [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Community Engagement on Reelmind [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Community engagement tools (Q&A, polls) [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Community SDK reduces wrapper development effort [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Community support for motivation and sharing tips [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Community vibe or events [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Community work boosts oxytocin and serotonin levels [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Community, local business, 35+ audience [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Community-focused, personal stories, link posts [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Companies using AI in at least one business function [medium] Overused AI term catalogued from the 'poetry' census sweep (source count 2).

Company: TechCorp Inc [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Compare coverage from multiple outlets for bias [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Compare CRM-friendly email tools [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Compare practical restaurant tools [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Compare social media management platforms [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Comparing AI Recipe Platforms Across the Market [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Comparing fares across airlines and flexible dates [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Comparison posts vs. alternatives [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Comparison Table: AI vs. Manual Methods [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Comparison — Two approaches side by side [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Comparison: Rent vs. Buy [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

COMPARISONSide-by-Side Feature Comparison [medium] Overused AI term catalogued from the 'academic' census sweep (source count 1).

Compete with bigger brands [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Competent but formulaic emotion [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Competition, discipline, physical tension [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

competitive landscape [medium] Stock business-metaphor phrase heavily favored by AI writing.

Competitive pricing for features included [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Competitive SoM positioning [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Competitor analysis for caption inspiration [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Competitor benchmarking with AI-powered insights [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Competitor benchmarks and social insights [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Competitor brands you differ from [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Competitor content (add your unique angle) [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Competitor content tracking [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Competitor research and content inspiration [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Compiles a summary with highlights and flags [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complements marketing email MCP servers well [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complete AI Bundle [medium] Overused AI term catalogued from the 'poetry' census sweep (source count 2).

Complete control over online terms [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Complete Fact-Checking Workflow [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Completion Rate: How many viewers watch to the end [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Complex API requires significant wrapper effort [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complex API requiring significant integration effort [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complex automation and workflows [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complex data model to map [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complex journeys and multi-location segmentation [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complex legal reasoning [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

complex legal research [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

complex motion practice [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Complex platform-specific rules [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complex pricing tiers [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complex story research: 4-8 hours per article [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Complex to master [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complex to set up properly [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complexity, oversight overload [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Complexity, resource demand [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Compliance and Legal Review [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

COMPLIANCE READY: Not yet compliant [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Compliant with fair housing guidelines [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Complication, Black Moment [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Compose a 100-word essay using specific words [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 10).

Comprehensive API surface [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Comprehensive overview / comprehensive guide [medium] Models announce 'a comprehensive overview' when prefacing structure; the self-congratulatory completeness claim.

Comprehensive solution [medium] Vague AI-favored marketing descriptor with no concrete meaning.

Computer Vision and Food Recognition [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Concept imagery for renovations → Midjourney, DALL·E [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Concerning the matter of [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Concerns over trust, authenticity [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Conclusion: Captivating Readers [medium] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Conclusion: Don't fear the future—write it [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Conclusion: Embracing (or resisting) the AI news era [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Conclusion: rewriting the rules of journalism, again [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Conclusion: rewriting the rules of newsroom survival [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Conclusion: Streamline and Succeed [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Conclusion: Your role in the AI-powered news future [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Concrete jungles [medium] Clichéd lyrical phrase frequently generated in AI music

Condense long reports instantly [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Condenses presentation content on eggs [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Condition and recency (buyers pay for "new") [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Strong lead routing [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Strong mobile app [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Strong recall automation [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Strong segmentation and CRM-style follow-up [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Strong team collaboration [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

stronger first drafts [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Stronger in APAC markets [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Stronger public trust [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

stronger than I've ever been [medium] Comparative-growth tag that asserts improvement without evidence. It's a frozen payoff line the model appends

Structure, outline, and first-draft generation [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Structure: The poetic form [medium] Overused AI term catalogued from the 'poetry' census sweep (source count 1).

Structured and semi-structured questionnaires [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Structured answers, schema [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Structured data (tables, lists) [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Structured gap analysis output is directly usable [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Structured output makes downstream action easier [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Structured, answer-focused, citation-ready [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Structures negotiation preparation efficiently [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Structuring content for retention [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Structuring the Second Chance [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Struggles with accents [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

studies show / experts argue / research suggests [medium] Unattributed authority appeals with no author, journal, or date; AI leans on these placeholders.

studies show that [medium] Uncited authority claim — Wikipedia signs: vague attributions.

Studio Sound enhances audio quality [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Studios with volume or tech-savvy photographers [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Study ethics and transparency in digital publishing [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Stunning — describes nothing [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Styldod (subscription): Unlimited virtual staging [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Style and finishes [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Style guide enforcement across all AI-generated copy [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Style presets for brand consistency [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Style refinement to match your intended audience [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Subdued color (white, gray, blood red for accent) [medium] Overused AI term catalogued from the 'mystery thriller' census sweep (source count 1).

Subgenres and Variations [medium] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Subgenres of Dark Romance [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Subjective (1-10 stress level) [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Submit AI Tool [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

subscription-based drafting help [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

subtle credibility issues [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Success factors in AI-generated journalism [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Success stories and case studies [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Success stories: Outlets that made AI news work [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Success stories: Where AI journalism got it right [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Sudowrite or Claude 4.7 Opus [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Suffice it to say [medium] Formal filler transition characteristic of AI prose.

Sufficient structured data sources available [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Suggest a follow-up date immediately [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Suggested context document language [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Suggestions are accurate and grounded in real data [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Suggests actions for each segment [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Suggests smarter food swaps [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Summarise decisions after meetings [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Summarization tool for source material [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Summarization, brainstorming and writing workflows [medium] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Summarize this contract [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Summarizes and condenses academic texts [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Summarizes detailed content in 700 words [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Summarizing complex policy documents [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Summarizing long documents [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Summarizing multi-hour interviews: 45-90 minutes [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Summarizing parliamentary debates [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Summary - A concise overview of the experience [medium] Overused AI term catalogued from the 'travel' census sweep (source count 2).

Summary of weekly activity [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

sun-drenched [medium] Tired listing cliché for natural light; a recognizable AI descriptor.

sun-kissed [medium] Purple filler adjective AI defaults to for beaches and skin; adds romance but no information.

Sunday morning church [medium] Stock faith-signifier AI adds for small-town wholesomeness. Pairs reflexively with 'Saturday night' as a sin/r

super heavy fantasy swords [medium] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Superior at nuanced analysis and ethical reasoning [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Words or phrases you avoid [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Words that make you sound smarter [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Words to avoid (and better swaps) [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Words to avoid in 2025 Workplaces [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

work hard, play hard [medium] Overused life-balance cliché AI defaults to; conveys nothing specific.

Work with Influencers and Partners [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Work, communicate, collaborate [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Work-life balance becomes a nostalgic memory [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Workflow automation and short-form marketing copy [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Workflow automation chains multiple copy tasks [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Workflow automation for end-to-end content creation [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Workflow automation for high-volume content needs [medium] Overused AI term catalogued from the 'poetry' census sweep (source count 1).

Workflow chaining, multi-language [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Workflow feature requires upfront setup investment [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Workflow optimization tips [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Workflow setup still requires dashboard [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Workflows require dashboard configuration [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

workflows, decisions, and interactions [medium] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Workplace Stress and Burnout [medium] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Works best with daily check-ins [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Works inspired by J. R. R. Tolkien [medium] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Works on full novels — not just 500 words [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 2).

Works seamlessly without manual input [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Works with major dental PMSs [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Works with the agent stack you already run [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Workshops and Coaching [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

world of ashes [medium] Generic apocalyptic refrain used in AI metal songs.

World-Building Tropes Overview [medium] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Worldbuilding + romance, power dynamics [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

worth flagging [medium] AI hedge-flag; a human says 'just so you know' or 'FYI'.

Wrapped in your love [medium] A wrapping/cocoon comfort metaphor the model favors; 'wrapped in your love' is an over-trained intimacy image

Wrapping Up: Embrace AI for a Healthier, Happier You [medium] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Write 5 email subject lines for a pre-arrival email [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Write a birthday poem or greeting card verse cheaply [medium] Overused AI term catalogued from the 'poetry' census sweep (source count 1).

Write a blog post about smartphones in 2024 [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Write a clear meta description [medium] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Write a detailed 500-word essay [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Write a detailed prompt using the framework above [medium] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Write a follow-up email [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Write a market update [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Write a narrative about a joyful personal memory [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Write a poem inspired by a photo or artwork [medium] Overused AI term catalogued from the 'poetry' census sweep (source count 1).

Write a Poem With AI Without Losing Your Voice [medium] Overused AI term catalogued from the 'poetry' census sweep (source count 1).

Write a precise haiku or metered poem [medium] Overused AI term catalogued from the 'poetry' census sweep (source count 1).

Write a social media post about my listing [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Write an extensive 5000-word analysis on a subject [medium] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Write better captions, faster [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Write Clear Captions and Choose Good Hashtags [medium] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Write dialogue that reveals character under pressure [medium] Overused AI term catalogued from the 'mystery thriller' census sweep (source count 1).

Write for Us [medium] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Write Heat Levels with AI [medium] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Write listings that sell, in seconds [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Write me a listing description [medium] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Colorectal cancer [low] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Combine AI and Human Creativity [low] Phrase frequently used in AI-generated content discussing AI limitations and augmentation

Coming soon [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Commercial agreements [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Common questions [low] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Community engagement [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Community review [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Community shoutouts [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Community spotlights [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Community-driven, slower [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Company milestones [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Company revenues [low] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Comparative analysis [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Comparison infographics [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Comparison table# [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

compelling case study [low] Top repetitive n-gram in glm-4.6 output (slop-forensics).

Competitive advantage [low] Overused AI term catalogued from the 'marketing' census sweep (source count 2).

Competitive pricing [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

Competitor A [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Competitor analysis [low] Overused AI term catalogued from the 'social media' census sweep (source count 2).

Competitor B [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Competitor tracking [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Competitor X [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Competitor Y [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Complaint drafts [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Complete solution [low] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Complex interface [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

complex multifaceted [low] Top repetitive n-gram in llama-4-scout output (slop-forensics).

complex negotiations [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Complex pricing [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Complex setup [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

compliance-heavy contracts [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Compounding returns [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Computer science [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Computer-assisted reporting [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 2).

Conditional automation [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Condo examples [low] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Connected profiles [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

consider your risk tolerance [low] Generic AI financial-advice disclaimer that sounds responsible but is vague boilerplate.

constant reminder [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

constraint restating [low] Reasoning models visibly re-assert requirements throughout. Recognizable, though low severity.

Constraint-Led Creativity [low] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Consumer Acceptance# [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Contact form [low] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Contact information [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Contact sales [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Contact segment [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Contact-based pricing [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

content warning [low] Top repetitive n-gram in claude-3.5-haiku-20241022 output (slop-forensics).

content warning narrative [low] Top repetitive n-gram in claude-3.5-haiku-20241022 output (slop-forensics).

content warning passage [low] Top repetitive n-gram in claude-3.5-haiku-20241022 output (slop-forensics).

ContentStudio Inc [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Contests (4) [low] Overused AI term catalogued from the 'mystery thriller' census sweep (source count 2).

Contextual misinterpretation [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Continue Experimenting [low] Generic AI-generated closing advice commonly used as placeholder guidance

Continue reading [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

continued fall washing [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

continues evolve [low] Top repetitive n-gram in gpt-4o-mini output (slop-forensics).

continuous improvement [low] Management-speak cliché AI defaults to in professional prose.

Contract commitments [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

contract drafting [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

contract drafts [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

contract review [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 3).

Contract summary [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Contribute to [low] Vague AI hedging verb used to imply impact without specifics.

conversation redirected [low] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Conversation starters [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Conversational AI [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

conversion optimization [low] Overused AI term catalogued from the 'travel' census sweep (source count 1).

ConvertKit (Kit) [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 7).

Copies sold* [low] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Copula avoidance (serves as / acts as / functions as instead [low] AI substitutes formal periphrasis for the plain copula ('serves as a wrapper' vs 'is a wrapper'), a recognizab

Copy editors [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Copy shortlink [low] Overused AI term catalogued from the 'poetry' census sweep (source count 4).

Copy-paste only [low] Overused AI term catalogued from the 'recipe' census sweep (source count 1).

CopyAI Inc [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Copyright 2025 [low] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Core components [low] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

cornfields / fields of gold [low] Default rural-scenery filler. AI paints generic agricultural backdrop (cornfields, wheat, 'fields of gold') to

corporate social responsibility [low] Top repetitive n-gram in gpt-4.1-nano output (slop-forensics).

Corpus type [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Cosmetic education [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Cost efficiency [low] Overused AI term catalogued from the 'marketing' census sweep (source count 2).

cost optimization [low] Corporate buzzphrase AI inserts to sound results-oriented.

Cost-Effective Alternative [low] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

could feel power [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

could feel weight [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

could find way [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

could help feel [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

could help notice [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

could help wonder [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

could shake feeling [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

count references [low] Top repetitive n-gram in mistral-nemo output (slop-forensics).

Court documents [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

court facing [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Court filings [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 2).

court opinions [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Court rules [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Covenant (2017) [low] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Cozy fantasy [low] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Create design [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Creates noise [low] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Creating content [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Creation efficiency [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Creative challenges [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Creative thinking [low] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Creator community [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Creator features [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 2).

Creator-focused features [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Creature effects [low] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

CrimeReads Twitter [low] Overused AI term catalogued from the 'mystery thriller' census sweep (source count 3).

Criminal law [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Crisis communication [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Critical analysis [low] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Critical reassessment [low] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Critical response [low] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

CRM included [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 4).

CRM Integration [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

CRM-connected marketing [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

CRM-powered automation [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Cross-platform analytics [low] Overused AI term catalogued from the 'social media' census sweep (source count 2).

Cross-platform auto-formatting [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Cross-platform comparison [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Cross-Platform Formatting [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Cross-platform metrics [low] Overused AI term catalogued from the 'social media' census sweep (source count 2).

Cross-Platform Optimization# [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Cross-Platform Psychology [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Cross-platform publishing [low] Overused AI term catalogued from the 'social media' census sweep (source count 9).

Cross-platform sync [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Cross-platform threads [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

crowd-pleaser [low] Generic positive AI descriptor asserting broad appeal with no evidence.

Crowdsourced sites [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

crucial role [low] Top repetitive n-gram in gpt-4o-mini output (slop-forensics).

CS Professional [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

CTA suggestions [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Cultural influence [low] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Custody declarations [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

custom formatting [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Custom GPTs [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Custom pricing [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Custom reporting [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Custom support [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Custom workflows [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Customer ROI [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

customer satisfaction [low] Top repetitive n-gram in llama-4-scout output (slop-forensics).

Customer support [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Customer testimonials [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Customizable personas [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Cyberpunk (derivatives) [low] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

D K [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Daily sprint [\[low\]](#) Overused AI term catalogued from the 'social media' census sweep (source count 1).

damp earth something [\[low\]](#) Top repetitive n-gram in Darkest-muse-v1 output (slop-forensics).

Dan O'Bannon [\[low\]](#) Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

dark eyes [\[low\]](#) Top repetitive n-gram in gpt-4-0314 output (slop-forensics).

dark lord [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

Dark romance [\[low\]](#) Overused AI term catalogued from the 'romance fiction' census sweep (source count 5).

Dashboard only [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Dashboard-Obsessed Leaders [\[low\]](#) Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Data control [\[low\]](#) Overused AI term catalogued from the 'social media' census sweep (source count 1).

data driven [\[low\]](#) Top repetitive n-gram in gpt-oss-20b output (slop-forensics).

data driven decision [\[low\]](#) Top repetitive n-gram in gpt-oss-20b output (slop-forensics).

Data journalism [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Data licensing [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Data privacy [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Data quality [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Data synthesis [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Data triangulation [\[low\]](#) Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Data-backed personalization [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Data-driven forecasting [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Data-driven journalism [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Data-driven optimization [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Data-driven publishing [\[low\]](#) Overused AI term catalogued from the 'social media' census sweep (source count 1).

Data-driven ranking [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Data-driven reporting [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Data-heavy reports [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Dated interface [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Dated templates [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

Dated UI [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Dave T [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

David 8 [\[low\]](#) Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

DAW Books [\[low\]](#) Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Day-in-the-life content [\[low\]](#) Overused AI term catalogued from the 'social media' census sweep (source count 1).

Day-in-the-life montage [\[low\]](#) Overused AI term catalogued from the 'social media' census sweep (source count 1).

days turned [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

days turned weeks [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

DC Comics [\[low\]](#) Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Deal memos [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Dec 2023 [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Deceive, Manipulate [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Decide to [\[low\]](#) Overused AI term catalogued from the 'poetry' census sweep (source count 1).

decision making [\[low\]](#) Top repetitive n-gram in gpt-4o-mini output (slop-forensics).

decision making processes [\[low\]](#) Top repetitive n-gram in gpt-4o-mini output (slop-forensics).

decision postponed [\[low\]](#) Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Decision support [\[low\]](#) Overused AI term catalogued from the 'travel' census sweep (source count 1).

Declaration drafts [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

deep breath [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

deep breath feeling [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

deep breath steeling [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

deep breath stepped [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

deep breath try [\[low\]](#) Top repetitive n-gram in llama-3.1-70b-instruct output (slop-forensics).

deep breath trying [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

deep learning [\[low\]](#) Overused AI term catalogued from the 'travel' census sweep (source count 1).

deep seated [\[low\]](#) Top repetitive n-gram in glm-4.6 output (slop-forensics).

deep understanding [\[low\]](#) Top repetitive n-gram in gemini-2.5-flash-lite output (slop-forensics).

deep within [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

Deep, contextual [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

deeper research [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Deepfake videos [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

DeepL Write [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

DeepSeek V3 [\[low\]](#) Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Delay timing [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Deliberate, contextual [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Deliverability monitoring [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 5).

deliverable type [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

demand letters [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 2).

Demographic descriptors [\[low\]](#) Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Dental sequence [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Dental-industry standard [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

dependable delivery [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Deposition summaries [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

description refers series [\[low\]](#) Top repetitive n-gram in chatgpt-4o-latest output (slop-forensics).

Descriptive guide [\[low\]](#) Overused AI term catalogued from the 'travel' census sweep (source count 1).

desert worlds [\[low\]](#) Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Detail (stats) [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Detailed analytics [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 4).

Detailed scoring [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

Detailed, slower [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Developmental editor [\[low\]](#) Overused AI term catalogued from the 'romance fiction' census sweep (source count 2).

Diet-Specific Recipes [\[low\]](#) Overused AI term catalogued from the 'recipe' census sweep (source count 1).

Differentiated positioning [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Digital integrations [\[low\]](#) Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Digital-only outlets [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

dim light [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words)

dimly lit [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words)

dimly lit room [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words)

dipped horizon [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words)

dipped horizon casting [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words)

Direct auto-publishing [\[low\]](#) Overused AI term catalogued from the 'social media' census sweep (source count 1).

Directed by [\[low\]](#) Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Discovery requests [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Discovery summaries [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Discovery, visualization [\[low\]](#) Overused AI term catalogued from the 'academic' census sweep (source count 1).

Distributed by [\[low\]](#) Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Diversified algorithms [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Diversify datasets [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

document comparison [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Document limits [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Document quality [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Document review [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 3).

Document summaries [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Document type [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

dog mom [\[low\]](#) Very common nurturing-personality signal in dating profiles; frequent AI-generated relatability filler.

Domain expertise [\[low\]](#) Corporate phrasing AI leans on for credibility framing.

don't forget to like and subscribe [\[low\]](#) AI YouTube-script boilerplate closer.

Don't get me wrong [\[low\]](#) Manufactured conversational hedge AI inserts to seem casual.

Don't panic [\[low\]](#) Documented Grok personality flourish (Hitchhiker's Guide inspiration) used as a playful opener; a soft tell.

Don't write [\[low\]](#) Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Done-for-you setup [\[low\]](#) Overused AI term catalogued from the 'real estate' census sweep (source count 1).

door clicks shut [\[low\]](#) Top repetitive n-gram in reka-flash-3:free output (slop-forensics).

door creaked open [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words)

door swung open [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words)

Double vanity [\[low\]](#) Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Download EPUB [\[low\]](#) Overused AI term catalogued from the 'fitness wellness' census sweep (source count 2).

Download PDF [\[low\]](#) Overused AI term catalogued from the 'fitness wellness' census sweep (source count 2).

Download ZIP [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Doyal AS [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

draft capturing [\[low\]](#) Top repetitive n-gram in claude-3.5-haiku-20241022 output (slop-forensics).

Draft consistency [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Drafting quality [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Drafting-Only Tools [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Drag-and-drop editor [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 4).

Drag-and-drop grid [\[low\]](#) Overused AI term catalogued from the 'social media' census sweep (source count 1).

draw on [\[low\]](#) AI-favored phrasing for using experience or resources.

Dream home [\[low\]](#) Overused AI term catalogued from the 'real estate' census sweep (source count 1).

dream kitchen [\[low\]](#) Vague aspirational descriptor used without concrete feature specifics.

Drill down [\[low\]](#) Corporate verb AI overuses for analysis framing.

driven decision making [\[low\]](#) Top repetitive n-gram in gpt-oss-20b output (slop-forensics).

Drones are [\[low\]](#) Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Drop-In Nemesis [\[low\]](#) Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

dropping conspiratorial whisper [\[low\]](#) Top repetitive n-gram in gemma-2-9b-it output (slop-forensics).

dry leaves skittering [\[low\]](#) Top repetitive n-gram in gemma-2-llable-9B output (slop-forensics).

due diligence [\[low\]](#) Overused AI term catalogued from the 'legal medical' census sweep (source count 3).

Dungeon-crawl progression [\[low\]](#) Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

dust motes danced [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words)

Dynamic environment [\[low\]](#) Vague corporate descriptor AI overuses.

e g [\[low\]](#) Top repetitive n-gram in gpt-oss-20b output (slop-forensics).

E-commerce features [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 2).

E-Commerce Roundups [\[low\]](#) Overused AI term catalogued from the 'travel' census sweep (source count 1).

Early development [\[low\]](#) Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Early history [\[low\]](#) Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Early NLG [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

early th century [\[low\]](#) Top repetitive n-gram in grok-4-fast output (slop-forensics).

Easy task [\[low\]](#) Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Ebook maker [\[low\]](#) Overused AI term catalogued from the 'social media' census sweep (source count 1).

echoed mind [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words)

Ecommerce automation [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Ecommerce personalization [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Ecommerce sequences [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Ecommerce stores [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

economic growth [\[low\]](#) Top repetitive n-gram in llama-4-scout output (slop-forensics).

Ecosystem commitment [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

Edge AI [\[low\]](#) Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Edited by [\[low\]](#) Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Editorial access [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Editorial debate [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Editorial overhaul [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Editorial oversight [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 3).

Editorial planning [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Editorial standards [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Editorial-quality templates [\[low\]](#) Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Educational posts [\[low\]](#) Overused AI term catalogued from the 'social media' census sweep (source count 1).

Efficient analysis [\[low\]](#) Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

elara said voice [\[low\]](#) Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words)

Election returns [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

electric/magnetic touch [low] Stock 'instant chemistry' descriptor; AI uses 'electric'/'magnetic touch' to signal attraction without describing

Electronic typesetting [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

element tropes [low] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Eligibility guidelines [low] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

else something [low] Top repetitive n-gram in Darkest-muse-v1 output (slop-forensics).

Em-Dash Addition [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Email announcement [low] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Email copywriting [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Email correspondences [low] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Email design [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Email promises [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Email timing [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Email type [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 2).

Emerging technologies [low] Vague tech-trend phrase AI uses as filler.

Emotion-adaptive meditation [low] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Emotional connection [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Emotional nuance [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Emotional resonance [low] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Emotional trends [low] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

emotionally charged [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Empirics Asia(empirics.asia) [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

EMPLOYEE RELATIONS [low] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

employment disputes [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

empower yourself [low] Vague empowerment phrasing common to AI wellness output, but also common in ordinary human self-help copy; wea

Empowering communities [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Empowering generations [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Empowering individuals [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Empowering others [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Empty-nester downsize [low] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

en Español [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Enable you to [low] Wordy construction AI prefers over 'let you'.

Enchanted forest [low] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

end end end [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

End-to-end [low] Overused corporate qualifier AI attaches to solutions.

End-to-end automation [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

End-to-end encryption [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

End-User Analysis [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

EndNote (tagged) [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Enforcement, consistency [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Engagement analytics [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Engagement rate [low] Overused AI term catalogued from the 'social media' census sweep (source count 2).

Engagement rates [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Engagement-aware scheduler [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Engaging guide [low] Overused AI term catalogued from the 'travel' census sweep (source count 1).

Engineering-problem survival [low] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

English tutors [low] Overused AI term catalogued from the 'corporate' census sweep (source count 1).

Ensure that [low] Formal connective AI overuses in instructional prose.

Enterprise lifecycle [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Enterprise pricing [low] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Enterprise teams [low] Overused AI term catalogued from the 'social media' census sweep (source count 2).

Enterprise-grade analytics [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Enthusiastic, skeptical [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Epic poetry [low] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Epic world-building [low] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Epoch AI(epoch.ai) [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Error detection [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Error metric [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Error rate [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 7).

Escalation memo [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

essay delve [low] Top repetitive n-gram in mistral-nemo output (slop-forensics).

essay delve multifaceted [low] Top repetitive n-gram in gemini-2.5-flash-lite output (slop-forensics).

essay explore [low] Top repetitive n-gram in gemma-3-4b-it output (slop-forensics).

essay explores [low] Top repetitive n-gram in gpt-4o-mini output (slop-forensics).

Essentially / In essence [low] Filler that promises distillation but precedes shallow restatement; AI uses it to sound like it's simplifying

Est. Citations [low] Overused AI term catalogued from the 'academic' census sweep (source count 1).

Estate planning [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

et al [low] Top repetitive n-gram in mistral-nemo output (slop-forensics).

ethical considerations [low] AI's stock boilerplate section for any topic touching risk or fairness.

Ethical reasoning [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

ethically sensitive [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

EU publishers [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

euclid special containment [low] Top repetitive n-gram in claude-3.7-sonnet output (slop-forensics).

Event announcement [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Event management [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 2).

Events only [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 2).

ever seen [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

every heartbeat [low] AI loves equating heartbeat to the beat/bass for cheap body-music fusion imagery. Predictable and physiologica

every single day [low] Meter-filling intensifier that adds emphasis but no information; 'single' is pure padding, a hallmark of the m

Everyday headaches [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Everyone mourns [low] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Everything for [low] Overused AI term catalogued from the 'fitness wellness' census sweep (source count 1).

Everything included [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

evidence based [low] Top repetitive n-gram in gpt-oss-20b output (slop-forensics).

Evidence summaries [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

evil twin [low] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Example excerpt [low] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Example phrases [low] Overused AI term catalogued from the 'romance fiction' census sweep (source count 1).

Example subject [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

Excellent accuracy [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Excellent automation [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

Excellent deliverability [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Excellent reporting [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 3).

Excellent writing [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Executive summary [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

exhaled slowly [low] Top repetitive n-gram in chatgpt-4o-latest output (slop-forensics).

Exit conditions [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Exit criteria [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 1).

Expensive per-location [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 2).

Experiential activations [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Experiment with Different Genres [low] Instructional pattern commonly appearing in AI-generated content about AI capabilities

Experiment with Unique Combinations [low] Instructional pattern common in AI-generated guides and tips

Expert guidance [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

Expert Q&A [low] Overused AI term catalogued from the 'fantasy fiction' census sweep (source count 1).

Explainer videos [low] Overused AI term catalogued from the 'marketing' census sweep (source count 1).

Explore categories [low] Overused AI term catalogued from the 'real estate' census sweep (source count 1).

Export options [low] Overused AI term catalogued from the 'legal medical' census sweep (source count 1).

expression unreadable [low] Top repetitive n-gram in command-a output (slop-forensics).

extends far beyond [low] Top repetitive n-gram in gemma-3-4b-it output (slop-forensics).

Extensive integrations [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

Extensive templates [low] Overused AI term catalogued from the 'email copywriting' census sweep (source count 2).

External only [low] Overused AI term catalogued from the 'news journalism' census sweep (source count 1).

Extreme Close-Up [low] Overused AI term catalogued from the 'scifi horror' census sweep (source count 1).

Extremely comprehensive [low] Overused AI term catalogued from the 'social media' census sweep (source count 1).

eye contact [low] Top repetitive n-gram in gemini-2.5-pro-exp-03-25 output (slop-forensics).

eyes darting [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

eyes darting around [low] Cross-model repetitive collocation (slop-forensics; stopwords stripped — words may appear with function words

- eyes/skies** [high] Default visual cliché: AI maps 'eyes' to the only easy celestial rhyme, producing the universal 'eyes like the
- feel/real** [high] 'Keep it real' + 'how I feel' is the single most generic sincerity couplet; both words are pure abstraction. T
- fight/light** [high] AI's default coupling of the struggle ('fight') and hope ('light') tropes; the pairing recurs so often it betr
- fire/desire** [high] The fire/desire/higher/liar/inspire family is the model's default for passion across genres; in rap it produce
- fire/higher** [high] Couples the 'spit fire' brag with the 'rise higher' ascent arc, two of the model's most-reused motifs (rise/so
- flame/name** [high] Couples passion-metaphor ('flame') with the beloved's 'name' — AI's go-to for a yearning bridge ('whisper your
- forever/never** [high] AI traffics in absolutes; these two near-rhymed superlatives appear together constantly to signal eternal stak
- forever/together** [high] Three-syllable wedding-vow rhyme often completed by 'never'; AI's go-to for eternal-love choruses ('we'll be t
- free/be** [high] The laziest possible rhyme — two of the most common words in English — and AI's default empowerment-anthem clo
- free/be/see/me** [high] The '-ee' open-vowel cluster ('wanna be free / can't you see / here with me') is AI's easiest sing-along rhyme
- game/name** [high] The -ame family is the model's success vocabulary: 'in the game', 'rise to fame', 'make a name', 'bring the fl
- glory/story** [high] 'This is my story / rise to glory' is the model's default arc-summary couplet; both nouns are abstract triumph
- grace / embrace** [high] Both words are Suno-wiki-named clichés AND a default rhyme pair; the model reaches for 'grace/embrace' because
- grind/mind** [high] The grind theme cluster (grind/shine/time/mind) is an AI attractor; grind/mind pairs hustle-platitude with mot
- grind/shine** [high] Caps the grind-to-reward arc the model loves ('I grind so I can shine'); 'shine' is the LLM's default success
- heart/apart** [high] Cited alongside fire/desire as the archetypal exhausted rhyme. AI reaches for it because 'heart' is the most f
- heart/part** [high] The shortest, most generic member of the heart-family rhymes; flagged in pop-cliché lists for decades and now
- heart/start** [high] Twin of heart/apart for the 'new beginning' verse; AI reaches for it because 'start' is the easiest perfect rh
- hold/cold** [high] Touch-deprivation cliché ('no one to hold / the bed is cold'); AI maps the absence of an embrace to literal te
- hustle/muscle** [high] A perfect two-syllable rhyme that pairs the two flattest grind-rap nouns, so the model fuses 'I'm on my hustle

kiss/bliss [high] The default romantic-peak rhyme; 'bliss' is AI's top abstract-joy noun and exists in lyrics almost solely to r

love/above [high] A perfect-rhyme trap that forces unnatural celestial imagery ('sent from above') to justify it. AI takes the b

love/dove [high] A rhyme so notoriously hacky it's a punchline; AI still produces it because it's a perfect rhyme for the near-

money/honey [high] The most worn rap couplet in existence; an LLM reaches for it because it's the highest-probability rhyme for '

night/fight [high] The default metal/rock anthem rhyme; pairs the genre's two most generic nouns. Its appearance signals the AI r

night/light [high] The -ight family is the model's darkness-to-hope engine: 'through the night', 'see the light', 'win the fight'

night/light/sight/right/fight [high] The '-ight' family is the densest cheap-rhyme cluster in English; AI cycles through all five within a single s

pain/chain [high] Bridges the struggle-noun 'pain' to the flex-noun 'chain', letting the model pivot from hardship to wealth in

pain/gain [high] Direct lift of the gym proverb 'no pain no gain' into bars; the model treats 'pain' as the canonical struggle-

rain / pain [high] Weather-as-emotion is the model's go-to figurative move; pain/rain (plus 'sunshine after rain') is a sentiment

shadow/echo [high] Not a true rhyme but a paired-imagery tell; 'shadows' and 'echoes' are AI's two favorite atmosphere nouns (cal

sky / fly / high [high] The elevation rhyme cluster (sky/fly/high/why) that auto-assembles around 'soar' and 'rise'; its co-occurrence

sky/fly [high] The -y aspiration family (sky/fly/high/try/why) is a massive AI attractor shared with pop. 'Touch the sky', 'I

soul/control [high] Abstract-on-abstract rhyme with no concrete image; AI loves it because both words are emotionally weighty and

soul/whole [high] AI's single most predictable lyric rhyme: 'soul' resolves to 'whole' (made me whole / heart and soul). It's th

stay/way [high] Top '-ay' cluster pairing; 'find a way' plus 'please stay' are both AI filler phrases, so the rhyme writes its

streets/beats [high] Self-referential filler the model loves: 'from the streets' (authenticity claim) + 'on these beats' (meta rap-

strong/belong [high] Belonging-anthem default; AI rhymes resilience ('stay strong') with acceptance ('where I belong'), the backbon

survive/alive/thrive [high] The full survival cluster; AI stacks all three in resilience songs, a tell that it's chaining the densest moti

tears/fears [high] Stacks two abstract emotion nouns into a tidy perfect rhyme; appears in almost every AI vulnerability verse wi

tears/years [high] Pairs crying with the passage of time ('all these tears / wasted years'); cited in forums as narrowing imagery

time/rhyme [high] Self-referential filler where the lyric rhymes the word 'rhyme' to admit it needed a rhyme; AI uses it to pad

all/fall [medium] Community posts specifically cite the 'all/fall' loop as a repetition-heavy AI tell ('give it all / watch me f

alone/unknown/stone/home [medium] AI's isolation cluster ('all alone / the great unknown / heart of stone / find my way home'); stacks its favor

arms/harm [medium] AI's default 'safe in my arms / away from harm' protector rhyme; near-rhyme glue for a stock comfort sentiment

around/found [medium] Search-and-find love rhyme ('looked all around / then you I found'); the inverted syntax to land the rhyme ('t

baby/maybe/lately/crazy [medium] Named in songwriting-cliché lists (baby/lately); AI overuses 'baby' as a syllable-filler address term and slan

believe/leave [medium] AI's default 'I can't believe you'd leave' rhyme; pairs trust with abandonment, a tidy perfect rhyme deployed

block/glock [medium] A documented top collocata-rhyme in rap that the model reproduces as its default street-danger couplet; it pai

brain/insane [medium] Another -ain(e) family default; 'insane' is the model's catch-all intensifier for skill ('my flow is insane')

break/mistake [medium] Default regret rhyme for AI apology songs; multisyllabic and generic, fits any relationship without detail.

break/take [medium] Generic conflict rhyme ('heart you break / love I take'); AI pairs the two highest-frequency verbs that perfec

breathe/leave [medium] Slant rhyme for codependency lines ('can't breathe / when you leave'); AI equates a partner with oxygen as a s

cash/fast [medium] The -ast family welds wealth ('stack the cash') to speed/longevity ('live it fast', 'built to last'). 'Built t

chains/remains/veins/pains [medium] AI's default 'breaking chains / through my veins / what remains / numbing pains' cluster for intensity verses;

cold/gold [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

crazy/amazing [medium] AI's default 'you drive me crazy / you're so amazing' slant rhyme; two of its most overused emotion adjectives

crazy/baby [medium] Stock pop slant-rhyme leaning on the filler word 'baby'; AI uses it as an easy chorus couplet. The reliance on

crown/down [medium] 'Wear the crown / never back down' is a stock king-metaphor couplet; the model treats 'crown' as the default s

cry/high [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

cry/why [medium] Question-and-tears couplet ('all I do is cry / I don't know why'); AI pairs the rhetorical 'why' with crying t

day/away [medium] Generic '-ay' filler; AI cycles 'day/away/stay/way/play' within one song, a structural rhyme-cluster tell.

deep/keep [medium] Named in songwriting-cliché lists; AI's default 'love runs deep / forever keep' rhyme, two abstractions glued

die/high [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

die/sky [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

down/town/around/crown [medium] AI loops the '-own/-ound' cluster ('falling down / leaving town / spin around') for easy filler; the repetitiv

dream/scheme [medium] AI pairs ambition ('chase your dream') with a forced 'scheme' that rarely fits the positive tone; the awkward

dream/seem [medium] A vague, filler-laden rhyme ('not as easy as it seems') that AI deploys to pad verses without committing to im

dream/team [medium] Default hype/anthem rhyme; AI uses it for any 'us against the world' verse with no concrete imagery.

dreams/beams [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

dreams/seams [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

emotion/ocean [medium] Feelings-as-water cliché with a clean three-syllable rhyme; AI equates depth of emotion with an ocean so relia

essence/presence [medium] AI pairs two of its favorite content-free abstractions as a rhyme ('your essence / your presence'). Both are v

eyes/cries [medium] Combines the overused 'eyes' image noun with crying; a tight perfect rhyme AI grabs for any tearful verse.

eyes/disguise [medium] AI's go-to for any 'hidden truth' verse; 'disguise' is its top multisyllabic perfect rhyme for the omnipresent

flame/game [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

flow/glow [medium] The -ow family clusters meta-rap ('my flow') with growth-platitudes ('watch me grow', 'I glow'); 'glow up' and

forever/endeavor [medium] AI reaches for the unusually formal 'endeavor' to rhyme 'forever,' a register mismatch in a pop lyric that bet

free/me [medium] Default liberation rhyme; pairs the abstract 'free' with the self, no concrete cage or scene, pure AI uplift f

game/same/name/flame [medium] AI chains the '-ame' cluster ('play the game / feel the same / call my name / an eternal flame'); flagged in s

girl/world [medium] The model's go-to for 'you're my everything' choruses; one of the most overused rhymes in its output.

glow/flow/grow/know [medium] The long--ow' cluster is an AI filler goldmine ('let it flow / start to grow / now you know'); cycling severa

gold/soul [medium] Near/slant rhyme AI treats as perfect, used to assert worth ('heart of gold / ancient soul'); the pairing lean

grace/place/face [medium] -ace cluster common in generated worship/ballad lyrics ('amazing grace / a better place / see your face'); cha

hand/understand [medium] Comfort rhyme ('take my hand / I understand'); flagged in forums as a worn couplet, AI deploys it for any reas

hand/understand/stand/land [medium] AI chains the '-and' cluster ('take my hand / you understand / together we stand'); 'understand' is its top mu

heart/spark [medium] Spark-and-heart is a top-probability emotion rhyme; its mechanical recurrence signals rhyme-dictionary complet

high/sky [medium] Companion to sky/fly — 'reaching so high / touching the sky' is AI's elevation cliché. Two near-identical vowe

hold/gold [medium] 'Worth more than gold' is a generated-lyric staple; AI grabs 'gold' as its default value metaphor to rhyme 'ho

hold/old [medium] Default 'grow old together' rhyme; AI's most-produced aging-love couplet, generic and detail-free.

hood/good [medium] 'From the hood / turned out good' is a stock redemption couplet; the model uses 'the hood' as a generic origin

kiss/miss [medium] AI's default longing rhyme ('your kiss / how I miss'); two ultra-common words, no image, endlessly recyclable

knees/please [medium] Begging-posture rhyme ('down on my knees / baby please'); cited in forums among modern R&B/pop clichés, AI use

love/above (or dove) [medium] Explicitly cited in AI-cliché writeups: 'love' paired with 'above' or 'dove.' One of the oldest forced rhymes

mind/find [medium] Inner-search rhyme ('searching my mind / peace I can't find'); AI's default for a contemplative bridge. Both w

neon/dream [medium] AI pairs the cliché image 'neon' with the equally generic 'dream' because both are high-frequency and slant-rh

night/alright [medium] AI's stock reassurance rhyme; 'through the night / be alright' arrives as a pre-formed comforting couplet with

night/light/fight/right [medium] The '-ight' family (night/light/fight/right/alright/tonight) is the workhorse of AI empowerment choruses; sour

pain/again [medium] Slant rhyme AI treats as clean, used for cyclical-suffering lines ('here comes the pain / again and again'); t

power/hour [medium] 'Feel the power' + 'finest hour' (plus 'ivory tower', 'money shower') — the -ower family inflates ordinary bra

pride/inside [medium] Hidden-feeling rhyme ('swallow my pride / what's deep inside'); AI's default for vulnerability verses. 'Deep i

real/deal [medium] 'The real deal' is a frozen idiom the model unpacks across two rhyme positions; like real/feel it asserts legi

rise/eyes [medium] Empowerment-meets-imagery rhyme ('watch me rise / open your eyes'); AI's reflex for a triumphant turn. The 'op

rise/skies [medium] Default phoenix/uplift rhyme ('I will rise / to the skies'); AI's go-to triumphant-chorus pairing, abstract an

river/forever [medium] One of AI's most predictable country rhymes, jamming an eternal-love abstraction ('forever') against the genre

Saturday night/holy light [medium] AI reaches for the sin-and-salvation rhyme to sound thematically 'country.' The forced 'holy light' to rhyme '

sea/me [medium] AI rhymes vast water with the self for scale ('deep as the sea / a part of me'); like sea/free and sea/be, 'me

seams/beams [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

shadows/tomorrow [medium] A forced slant rhyme the model favors because 'shadows' (a top mood word) needs a partner; 'tomorrow/sorrow' g

shame/blame/game [medium] A three-way -ame cluster AI strings together in accusatory verses ('not my shame / take the blame / play your

shine/divine/define [medium] AI's radiance cluster ('let it shine / love divine / you define'); 'divine' is a register-spiking filler rhyme

sky/fly / sky's the limit [medium] sky/fly/high powers the model's aspiration choruses, and 'the sky's the limit' is the matching idiom. Forums f

sky/high / fly/high [medium] Default 'aspiration' rhyme that pulls in flight/soaring imagery. AI uses it for any uplift moment, so it signa

sorrow/tomorrow [medium] Despair-meets-hope rhyme ('drowning in sorrow / brighter tomorrow'); AI's formula for a verse-to-chorus mood p

soul/goal [medium] The -ole family is the model's introspection engine: 'deep in my soul', 'reach my goal', 'take control', 'make

streets/heat [medium] Pairs the authenticity claim 'the streets' with 'heat' (the model's PG-safe slang for a gun or for being 'hot'

strong/long [medium] Default empowerment-anthem rhyme ('stay strong / all along'); AI's go-to for motivational verses, generic and

strong/wrong [medium] The -ong family fuels resilience-platitudes: 'stay strong', 'all along', 'prove them wrong', 'where I belong'.

stronger/longer [medium] The default rhyme that powers 'made me stronger' empowerment choruses (stronger/longer/no longer). Its inevita

sun/one [medium] Devotion rhyme equating the beloved with the sun and 'the one' ('you're my sun / you're the one'); AI's stock

throne/own [medium] Continues the king/throne attractor; 'sit on the throne' + 'do my own' fuses royalty-flex with independence-pl

time/climb [medium] Default 'journey/struggle' rhyme; AI maps progress onto 'climb' reflexively, often with the cliché 'mountain t

time/grind [medium] Slant pairing inside the grind cluster ('it's my time' + 'on my grind'); both are motivational-poster phrases.

time/mine [medium] Default possession/longing rhyme; the model selects 'mine' as the top rhyme for 'time', yielding the recurrent

town/down [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

trap/cap [medium] The model bolts two pieces of dictionary-acquired slang together ('in the trap' + 'no cap') because both are h

truck/luck [medium] Country-specific lazy rhyme: AI keeps the mandatory 'truck' token in the rhyme slot and reaches for 'luck'/'st

trust/dust [medium] 'Can't trust' + 'bite the dust' — the -ust family delivers the model's loyalty-and-betrayal theme in frozen id

war/more [medium] The -or(e) family pairs conflict ('ready for war') with ambition ('want more', 'open doors', 'settle the score

whiskey/misty [medium] A slant rhyme AI forces to keep 'whiskey' in the chorus, dragging in 'misty'(-eyed) emotion vocabulary. The pa

world/unfurled [medium] AI reaches for the archaic 'unfurled' to rhyme 'world,' a register spike in a pop lyric that exposes vocabular

years/fears [medium] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

you and me / eternity [medium] Commitment rhyme that overreaches scale ('eternity') for a simple sentiment; AI grabs it because 'eternity' is

you/true [medium] Among the highest-probability rhymes in English; Suno's default for devotion lines, signaling no editing.

be/me [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

be/see [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

believe/receive [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

chains/remains [low] Bondage-and-freedom rhyme ('break these chains / nothing remains'); AI reaches for 'chains' as the stock metap

electric/hectic [low] Forced multi-syllable rhyme AI reaches for to sound clever; the pairing is unnatural in real speech and expose

endless/relentless [low] AI pairs two 'less' intensity adjectives for faux-epic scale; both are vague magnitude words that exist to rh

free/see [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

gold/untold [low] AI pairs 'gold' value imagery with 'stories untold' mystery filler; both are stock abstractions, producing pre

ground/sound [low] Self-referential music rhyme ('feet on the ground / feel the sound'); AI's default for a beat-drop or groundin

heartbeat/repeat [low] Dance-specific rhyme welding body-pulse imagery to the music; AI pairs them because both are high-frequency da

heaven/seven [low] AI grabs the awkward 'seven' to rhyme 'heaven' for lack of alternatives, often producing nonsensical lines — a

leave/receive [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

see/me [low] Community-circulated 'lazy rhyme' canon (aggregated lore + elemental end-word bank: fire, light, rain, eyes, s

shadows/follows [low] Slant rhyme for haunted-past verses ('out of the shadows / something follows'); AI's go-to for ominous atmosph

sky/why [low] Skyward-questioning rhyme ('staring at the sky / asking God why'); AI's stock for an existential bridge. The u

tease/please/ease/breeze [low] AI's smooth--ease' cluster ('summer breeze / put your mind at ease / aim to please'); soft open-vowel rhymes

veins/flammes [low] Body-as-fire slant rhyme ('fire in my veins / fanning the flames'); AI's go-to for visceral-passion lines, dou

young/done [low] Slant rhyme for youth-nostalgia verses ('when we were young / before it was done'); AI's default for a wistful

TROPE (218)

absent breath sounds between phrases [high] Real singers audibly breathe; AI vocals frequently lack any breath, gulp, or intake between phrases.

all-uplift motivational verse (no scene) [high] Whole verses of 'believe in yourself / never give up / chase your dreams / stay strong' reflect the RLHF posit

breaking chains [high] Flagged by American Songwriter, songwriting blogs and Suno community discussion as a canonical AI uplift/empow

breaking down the walls I built [high] Emotional guardedness is almost always rendered by AI as a literal wall to be torn down; the architectural met

Breaking free / breaking the chains [high] Liberation framed as literally breaking chains/walls/cages is a default AI freedom arc. The chains are metapho

breaking the chains [high] Suno/Udio's single most-flagged freedom image; LLMs reach for 'chains' as the default metaphor for any constr

broken wings that learn to fly again [high] The 'damaged-then-healed flight' beat pairs two clichés (broken wings + flying again) into a self-contained re

casting away the shadows of my past [high] AI personifies the past as 'shadows' that follow and must be shed; the shadow-past pairing is a reflexive imag

Catch-and-return-default (.catch(() => null)) [high] AI swallows errors by returning a silent default (Promise.catch(() => null); except: return None), masking fai

Chasing dreams / 'follow your dreams no matter what' [high] 'Chasing dreams' is one of the model's reflexive thematic anchors for any aspiration. The dream is never speci

chasing my dreams [high] The most generic possible aspiration image; AI uses 'chase my dreams' as a placeholder for any goal because it

City of dreams / 'neon lights and broken dreams' [high] The 'big city chews up dreamers' frame paired with neon lights is a default urban-melancholy theme. 'Neon' is

Climb to the top / reach for the stars [high] Inspirational-poster ambition imagery; AI's positivity bias imports motivational-speaker metaphors (climb, sta

correct legal principle propped up by an invented citation [high] AI states a valid principle but supports it with phantom precedent, making the fabrication hard to catch.

Demons / 'fighting my demons inside' [high] Inner struggle personified as 'my demons' is one of AI's most reflexive mental-health frames. The demons are n

diamonds-and-chains flex with no brand specifics [high] Generators explicitly warn against 'cliché rap metaphors about diamonds and chains'; the model flexes with gen

digital wobble on sustained vowels [high] Fluttery micro-pitch modulation on notes held past ~1.5s is an inhuman synthesis artifact exclusive to AI voca

echoes in the silence / whispers in the wind [high] 'Echoes' and 'whispers' are top-flagged Suno tells; AI uses them as atmospheric filler to imply lingering memo

emoji as list markers [high] One decorative emoji leading each bullet point across a whole list; strong ChatGPT/Gemini formatting tell rare

empowerment-anthem default genre [high] Given a vague prompt, Suno collapses toward triumphant empowerment pop (rise/soar/dreams/phoenix). This themat

Escaping reality / 'run away to somewhere better' [high] The escapism frame is a high-frequency default: leave this town, chase the horizon, disappear into the night.

Excessive docstrings on trivial functions [high] AI emits full textbook Args>Returns docstrings even for one-line self-explanatory helpers; humans rarely docum

Experts agree ^[high] Vague authority claim naming no actual experts; AI default for manufactured credibility.

explicit moral lesson in the ending ^[high] AI stories frequently close by stating the theme/lesson outright rather than trusting the reader; a strong, em

fabricated case citations ^[high] AI invents nonexistent case names/citation numbers in legal output; a high-risk hallucination pattern.

fighting my demons ^[high] AI renders all internal conflict as a literal externalized battle with 'demons,' a vague abstraction that lets

Finding light in the darkness ^[high] Light-vs-dark is the model's go-to scaffold for any hope-after-pain song. Because light/dark is the most abstr

finding the light in the darkness ^[high] Light-vs-dark is AI's master moral binary; 'a light in the darkness' is the default hope-beat and appears so u

flower/rose blooming through concrete ^[high] A hyper-specific yet endlessly recycled 'beauty surviving hardship' image; AI deploys it as a stock visual sho

Generic empowerment / 'be yourself, you are enough' ^[high] AI gravitates to affirmation-poster sentiment because it's the most agreeable, lowest-risk message. The empowe

Hallucinated imports from non-existent packages ^[high] AI imports plausible-sounding but non-existent or unused packages (slopsquatting risk); a strong, verifiable A

Haters gonna hate ^[high] Faceless, motiveless antagonists invoked to manufacture conflict; AI uses 'haters' as a placeholder enemy beca

hometown glory / leaving this town ^[high] The complete AI country narrative skeleton: small-town kid torn between leaving and roots. AI reaches for this

Language-cross-pollination (JS methods in Python, etc.) ^[high] AI leaks idioms across languages (Array.find/.filter or camelCase conventions inside Python); a high-confidenc

light-vs-darkness binary ^[high] Resolving every emotional arc as light overcoming dark is the model's default moral geometry. It's flagged acr

Appeals to unnamed authority ^[medium] Vague authority citations ('experts say', 'studies show') are a hallmark of AI-generated persuasion.

As you know, Bob ^[medium] Named infodump anti-pattern where characters explain what they already know; AI over-produces this in expositi

Better place / 'someday we'll meet again' grief comfort ^[medium] AI defaults to soft, universal grief consolation ('you're in a better place,' 'watching over me,' 'till we mee

Born to be / 'this is who I'm meant to be' ^[medium] Destiny-affirmation ('born for greatness,' 'meant to shine,' 'this is my moment') is a default empowerment fra

Bounce back / comeback story ^[medium] Generic adversity-then-recovery beat; AI loves the redemptive bounce-back because its narrative training rewar

breaking dawn / a new day rising ^[medium] Sunrise = fresh start is AI's most overworked renewal cue; 'a new day rising / breaking dawn' closes empowerme

breaking the cycle ^[medium] AI's go-to abstraction for ending a bad pattern; the 'cycle' is never specified, so it functions as content-fr

breaking the silence ^[medium] Paired AI default for 'finding my voice'; silence-as-oppression broken by song is a self-referential beat the

breaking through the surface / coming up for air ^[medium] Drowning-then-surfacing is AI's stock image for surviving overwhelm; the water-rescue beat arrives prefabricat

broken chains ^[medium] Flagged by American Songwriter, songwriting blogs and Suno community discussion as a canonical AI uplift/empow

broken wings / mending wings ^[medium] Loudwire flags clichéd flight metaphors (learning to fly, mending damaged wings) as a rock staple; AI deploys

broken/shattered + glass/chains imagery ^[medium] 'Shattered Dreams' and 'Broken Chains' were explicitly named AI-lyric clichés; the model defaults to 'broken'/'

Burning bridges / 'no looking back' ^[medium] The clean-break-and-move-on theme ('burning bridges, never looking back') is a default liberation frame flagge

carrying the weight of the world ^[medium] Atlas-style burden imagery ('weight of the world on my shoulders') is a default depiction of stress the model

Chains and Lambos / foreign whips ^[medium] Stock luxury-prop checklist (chains, Lambos, foreign cars) with no specific model, color, or moment; AI assem

chasing shadows / running from the dark ^[medium] Shadow/darkness as a pursued or pursuing threat is an AI default for fear and avoidance; the abstract 'shadows

chasing the light at the end of the tunnel ^[medium] A double-stacked cliché (light + tunnel) AI uses to signal 'things will get better'; the prefab idiom replaces

climbing the mountain / reaching the summit ^[medium] AI's default 'struggle as physical ascent' arc; the mountain stands in for any goal, so the climb is generic e

cluster of 5-star reviews with formulaic language ^[medium] Bursts of top-rated reviews sharing formulaic phrasing signal coordinated AI generation.

Coming home / 'finding my way back home' ^[medium] 'Home' as an abstract destination of belonging is an AI-default closure theme. Home is emotional and placeless

Dawn of a new day / 'today is the first day of the rest of m ^[medium]

Fresh-start-at-sunrise is a default reinvention theme stitched from motivational-poster language. The new begi

Diamonds shining / ice on my wrist ^[medium] Default flex imagery defaulting to diamonds/ice with no brand, story, or specificity; AI reaches for the most

Drinking to forget / 'whiskey and your memory' [medium] The barroom-heartache frame (whiskey/bottle/bar to numb a breakup) is a default country/blues sad theme. It's

Drowning / 'in over my head, can't breathe' [medium] Claude structurally overuses em dashes; waves crashing, going under) is the model's default metaphor system for anxiety

drowning in my sorrows / tears [medium] AI literalizes sadness as drowning so reflexively that 'drowning in tears/sorrow' is the default grief image,

em-dash chains (2+ per sentence) [medium] Claude structurally overuses em dashes; multiple dashes stacked in a single sentence/paragraph forms a statist

emoji as section bullets or headers [medium] AI decorates lists/sections with a leading emoji per item ('■ Fast', '■ Smart') — a formatting habit rare in h

every line ends on a rhyme [medium] AI defaults to rhyming every line-end, producing mechanical, predictable structure that lacks narrative flow.

every thread resolves perfectly with no loose ends [medium] AI defaults to over-tidy resolutions where every question is answered, making plots feel mechanical.

Everyone Is the Same Person [medium] Named AI-fiction tell where every character speaks the same voice.

explicit moral stated by the narrator [medium] AI spells out the lesson far more often than human writers, killing reader inference in fiction.

explicitly stating the moral/lesson [medium] AI spells out the takeaway rather than letting the reader infer it, ending on a heavy-handed summary.

facing my fears head-on [medium] Generic courage beat with the stock intensifier 'head-on'; the fear is left abstract, which is what marks it a

Fight for love / 'I'll cross oceans for you' [medium] Grand-gesture devotion ('cross oceans', 'climb mountains,' 'walk through fire for you') is a default love-inte

finding my voice [medium] AI's stock metaphor for self-expression/empowerment; the abstract 'voice' lets the model claim a growth arc w

finding my way back home [medium] The 'journey home' as resolution is an AI structural default; 'home' is an abstract emotional destination, nev

fractal summaries [medium] Restating the same points at multiple nested levels (section recap then overall summary, then conclusion) pro

generic first names as reviewers [medium] AI defaults to a small pool of common names (Emily, Sarah, John) when fabricating testimonials.

Generic status envelope ({success, data}) [medium] AI reflexively wraps returns in {status/success/data} envelopes even where a plain return suffices; a repetiti

Ghost of you / 'haunted by your memory' [medium] Post-breakup haunting (ghosts, echoes, your shadow in every room) is a default lingering-loss theme. It pairs

grumpy sunshine [medium] Specific paired-personality dynamic that AI models over-select in contemporary romance; concrete and identifia

hail Satan / serve the dark lord [medium] Loudwire/Invisible Oranges note Satan has become metal's most pervasive cliché; AI reproduces stock satanic im

Healing / 'learning to love myself again' [medium] Therapy-speak self-recovery is an increasingly default AI theme that maps onto current wellness vocabulary. Th

Hedging before making a point [medium] AI habit of qualifying a claim before stating it.

holding up my shield / armor on [medium] AI literalizes emotional defense as medieval combat gear (shield/armor), a grandiose physicalization of a feel

identical chorus repeated with no variation [medium] AI songs repeat the chorus verbatim without dynamic development, energy build, or lyric variation between repe

In the booth / spitting fire / drop bars [medium] Rap-about-rapping filler ('in the booth,' 'spit fire,' 'drop bars'); AI describes the act of rapping as a stan

Inflated docstrings with enterprise buzzwords [medium] AI pads docs with grandiose jargon ('leverage robust integration for decentralized orchestration') wildly out

Inner strength you had all along [medium] The 'the power was inside you the whole time' resolution is a closed, self-justifying arc the model loves beca

instalove [medium] Romance-genre trope for relationships developing implausibly fast without buildup; a recognizable pattern in A

Invincible / 'nothing can stop me now' [medium] Peak-confidence anthems ('unstoppable,' 'bulletproof,' 'nothing can stop me') are a default empowerment frame.

journey-as-life trope [medium] Framing struggle as 'my journey / the road I've walked / this path' is the model's go-to growth metaphor (note

king/legend/GOAT self-coronation, no rivals [medium] The model crowns the narrator 'king', 'legend', 'the GOAT', 'on the throne' as abstract status claims without

Letting go / 'I'm setting you free' [medium] The graceful-breakup theme where the narrator nobly releases the other person is an AI default for mature hear

light and dark / good and evil [medium] Communities cite light/dark and good/evil as metal's most overused universal imagery; AI loves these binaries

light/dark binary as whole theme [medium] The model structures emotion as light-vs-dark (out of darkness into light, fighting the dark, chasing the ligh

Lighting up the sky / 'we'll burn so bright, like fireworks' [medium] The 'we shine, we burn, we light up the night' anthem frame is a default empowerment-po concept. Fire/firewor

Line-by-line comments restating obvious code [medium] AI narrates self-evident lines (# Get the length / length = len(array)); a strong tell because experienced hum

Living in the moment / 'tonight we're young and free' [medium] The YOLO/anthemic-po 'tonight we own the night, forever young' frame is a default party-uptift theme. It cele

Love as salvation / 'you saved me' [medium] AI reaches for the 'you rescued me from my darkness' frame as the default deep-love statement. It's grandiose

Mama told me / for my mama (generic) [medium] Sentimental mother-reference inserted for emotional weight; AI uses a generic 'mama' beat (made it for mama, m

Map / compass / finding my way' journey metaphor [medium] Life-as-a-journey with literal maps, compasses, crossroads and 'finding my way' is the model's default arc for

metallic sibilance [medium] S and T consonants have a bright, crystalline, copy-pasted quality lacking natural timbral variation in AI voc

missing piece / completes me [medium] The 'you complete me' template; AI gravitates to it because it's the canonical way to express need, making the

missing specific product details [medium] AI reviews avoid naming concrete features, dimensions, or materials it has no experience of.

Mutable default arguments (items=[]) [medium] AI reproduces the classic Python mutable-default footgun that experienced devs avoid; concrete and checkable a

no typos, doubled letters, or keyboard slips [medium] AI text is free of the transpositions, doubled letters, missed spaces and autocorrect artifacts a human typist

Over-defensive nested guards for no real reason [medium] AI stacks redundant null/length/inistance checks (if items is not None: if len=0: if items[0] is not None) wh

phoenix rebirth trope [medium] Whenever a prompt mentions recovery or comeback, AI reaches for the phoenix/ashes myth. It's an overdetermined

phoenix/wings/soar comeback imagery [medium] The model's default comeback imagery is flight — phoenix from ashes, spreading wings, learning to fly, soaring

Pray to God / thank the Most High (generic) [medium] Boilerplate gratitude-to-God beat dropped in to sound grounded; AI inserts safe, non-specific faith language a

raising my fist to the sky [medium] A stock gesture AI inserts as visual shorthand for defiance/triumph; the raised-fist image is a prefab body-po

Reaching for the stars / 'the sky's the limit' [medium] Ambition rendered as literal stargazing/sky-reaching is a default aspiration theme. 'Reach for the stars,' 'no

Rewriting my story / 'turning the page, new chapter' [medium] Life-as-a-book ('turn the page,' 'new chapter,' 'rewrite my story,' 'story unfolds') is a default reinvention

Riding for my team / squad / day ones [medium] Generic crew-loyalty beat invoking unnamed 'day ones/squad'; AI gestures at a tight crew it never individuates

rule of three enumeration [medium] GPT default to three-item lists and three-point summaries applied predictably across contexts

rule-of-three tricolon lists [medium] AI defaults to three-part parallel lists ('body, mind, and spirit'); frequent but also common in human rhetori

setting my soul on fire / heart ablaze [medium] Passion-as-literal-fire is an over-default; 'soul on fire / heart ablaze' is reached for whenever intensity is

Small-town escape / 'getting out of this town' [medium] A reflexive Americana/country-pop frame: the narrator must leave a dead-end town for the city/highway. The tow

Soulmate / 'two halves of one whole' [medium] The cosmic-destined-love theme ('made for each other,' 'two halves complete,' 'written in the stars') is a def

spelling out the moral [medium] AI stories disproportionately end by stating the lesson explicitly rather than trusting the reader; measurable

spitting bars / killing the mic self-reference [medium] The model fills space by rapping about rapping ('spit these bars,' 'kill the mic,' 'drop the verse,' 'on the b

Standing in the rain / crying-in-the-storm catharsis [medium] Rain as externalized sorrow (standing in the rain, tears like rain, washed clean by the storm) is the model's

Star-crossed lovers / 'us against the world' [medium] The forbidden/em battled-romance frame ('they'll never tear us apart, it's you and me against everything') is a

straight apostrophe auto-converted in contractions [medium] Contractions render with the curly apostrophe (don'tu2019t, it'u2019s) rather than the straight one a raw types

Sun will rise again / 'after the rain comes the rainbow' [medium] Guaranteed-hope frames (sun rises, rainbow after rain, dawn after night, spring after winter) are the model's

Synonym carousel [medium] AI rotates near-synonyms (#####/#####/#####; company/organization/enterprise) to dodge repetiti

tears (falling / crying) cluster [medium] The model defaults to literal tears/crying for any sadness ('tears fall like rain,' 'crying in the dark'); the

the fire inside / flame that won't die out [medium] An inner 'fire/flame that never dies' is AI's reflexive symbol for unkillable determination; the elemental ima

the journey / this journey [medium] The model frames any topic as 'a journey'; this default narrative scaffold ('it's not the destination, it's th

the masks we wear / taking off the mask [medium] Hidden-self-as-mask is AI's default authenticity metaphor; 'take off the mask to show the real me' is a comple

They know my name now [medium] Generic recognition-as-success beat; AI asserts newfound fame ('they know my name') without a scene or moment,

tidy resolution of every thread [medium] AI closes narratives with clean solutions and guaranteed outcomes, avoiding the ambiguity real experience carr

Time as a thief / 'where did the time go' [medium] AI personifies time slipping away ('time keeps slipping,' 'years fly by like sand') as a default meditation-on

Title Case In Section Headers [medium] AI defaults to Title Case where nearly every word is capitalized in headings, departing from sentence-case nor

Top of the game / king of the throne [medium] Generic crown/throne supremacy imagery; AI reaches for monarchy metaphors as default dominance signaling, with

Toxic-love drama / 'we're poison but I can't leave' [medium] The 'you're bad for me but I crave you' frame is the model's default for adult heartbreak intensity. It stays

Trust no one / can't trust nobody [medium] Generic paranoia/loyalty trope with no betrayer named; AI asserts distrust as a mood without the specific snak

unbreakable / can't be broken [medium] AI's blunt resilience assertion; declaring oneself 'unbreakable' tells rather than shows toughness, a hallmark

Comment X to receive Y [high] Explicit transaction engagement-bait pattern heavily produced by AI social copy; distinctive templated CTA.

contentReference[oaicite] citation artifact [high] ChatGPT web-search leaves a 'contentReference[oaicite:N]{index=N}' citation stub in its answer; if it survives

curly apostrophe / single quotes (' ', U+2018/9) [high] Smart apostrophes/single quotes ('don't', '2019') come from AI/word-processors; a raw typist types the straight a

curly double quotes (" ", U+201C/D) [high] Smart/curly double quotes appear in AI and word-processor output; a human typing raw types straight quotes "".

Dans le paysage [X] de [high] Formulaic French 'In the [X] landscape of' framing device with placeholder; signature AI introduction.

endless [night/road/way] [high] AI repeatedly pairs 'endless' with time/journey nouns as a default intensifier.

Executed effective [X] strategies to [enhance/optimize/impro] [high] Rigid AI resume-bullet template with padded adjective and vague outcome; recurs across generated resumes.

fading [light/away/memories/dreams] [high] Predictable AI phrase for loss/decline in generated lyrics.

false contrast (it's not just X, it's Y) [high] One of the most recognizable AI rhetorical templates; creates faux-insight.

From X to Y, [main statement] [high] The 'From X to Y' framing is a signature AI sentence template used to imply sweeping range.

Gemini: 'here's a breakdown / what you need to know' [high] Gemini's default list-dump opener.

guilt curdled in [noun] [high] DeepSeek R1 signature emotion-as-physical metaphor; 'curdled' as an emotional verb is distinctive and rare in

heart hammered against her ribs [high] Cardinal AI fiction tell; the 'heart hammered ribs' construction is massively overrepresented in model outputs

Here is the revised / rewritten version [high] Editing-handoff preamble the model prepends when returning a rewrite. If it appears in a finished piece, the a

Imagine a world where X [high] Mad-lib hypothetical opener AI uses to hook readers with an imagined scenario.

In an era where X [high] Fill-in-the-blank era opener that reliably flags AI-generated intros.

In the ever-changing world of X [high] Templated 'ever-changing world of [domain]' opener characteristic of AI writing.

It is not just about X, it is also about Y [high] Formulaic AI antithesis construction contrasting two ideas for false depth.

it's crucial to [high] Emphatic softener that introduces caveats; used systemically in AI writing to appear authoritative while hedgi

It's not just X. It's Y. [high] Signature AI rhetorical structure across all LLMs; overcorrects by presenting a false contrast as a revelation

It's not X, it's Y [high] Contrastive binary structure LLMs default to for perceived sophistication; distinctive multiword shape, not a

it's not X, it's Y / not just X but Y [high] Antithesis contrast frame that manufactures false profundity; measurably frequent in ChatGPT output.

knowledge-cutoff self-reference [high] The model narrating its own training boundary ('as of my last knowledge update', 'my training data goes up to

little did (he|she|they) know [high] Formulaic AI foreshadowing device signaling low-effort plotting; a strong narrative tell.

markdown bold in body text (text**)** [high] Double-asterisk bold is markdown; if it appears in a finished piece or a plain-text field the author pasted AI

markdown bold lead-in with colon (Word:*)** [high] AI's signature bolded-term-then-colon list item; a strong structural + typography tell.

markdown header hashes (## Heading) [high] Leading # header syntax in body text or a lyric field is un-rendered markdown pasted straight from AI.

markdown horizontal rule (--- / *)** [high] A markdown horizontal-rule line is un-rendered AI formatting pasted verbatim.

may help support / could reduce [benefit] [high] Conditional causation construction; asserts a claim while retaining plausible deniability via may/could hedgin

may your [noun] be filled with [adjective/noun] [high] Mad-lib greeting formula AI defaults to across occasions; the interchangeable slots are the tell.

naviguer dans [X] [high] AI-favored corporate 'navigate' metaphor used in place of a simpler verb, calqued from English

negative parallelism 'not X, but Y' [high] AI's signature rhetorical frame — defines a thing by what it isn't to sound profound.

Nicht nur X, sondern auch Y [high] German 'not just X, but also Y' — LLM-favored negative-parallelism structure mirrored across languages.

No es X, es Y [high] Spanish antithetical 'not X, but Y' contrast frame overused by AI to manufacture false dichotomies.

no real-time / cannot browse disclaimer [high] Assistant hedge about lacking live data or web access. Never something a human writer says about their own art

No X. No Y. Just Z. [high] The staccato triple 'No X. No Y. Just Z.' opener is a recognizable AI/LinkedIn hook pattern.

non solo X, ma anche Y [high] Stereotyped 'not only X, but also Y' construction overused by AI for artificial binary contrasts in Italian

non-breaking space (U+00A0) [high] A non-breaking space is invisible but only appears in copied HTML / AI output — a human keyboard produces a no

Not just X but Y [high] The 'not just X, but Y' escalation is a strong AI stylistic tell.

not X, but Y [high] AI's signature binary-contrast rhetorical structure; over-detected by anti-slop samplers as a hallmark of gene

one/a caveat: framing [high] Any 'caveat' framing is a strong AI meta-discourse tell; a casual human rarely labels a caveat as such.

Perplexity: 'According to a [year] report by' [high] Perplexity's formulaic citation attribution.

Perplexity: 'based on the search results / available informa [high] Perplexity/RAG answer-opener.

please do not hesitate to [high] Boilerplate customer-service AI closer; a human says 'just ask' or 'lmk'.

questo non è X, è Y [high] Repetitive 'this is not X, it is Y' correction/negation-parallelism formula characteristic of AI Italian

react with [emoji] if you love [X] [high] Specific react-bait template.

self-posed question, instant answer ('The result? Devastatin [high] Asks a tiny rhetorical question and answers it in one punchy word for fake drama.

should you have any questions [high] Ultra-formal AI service register; a human says 'any questions, ask'.

The [noun] has revolutionized the way we [verb] [high] Formulaic AI tech-hype sentence template.

the ever-evolving landscape of [high] Lazy AI filler framing used to introduce topics; strong tell especially at section openings.

The problem isn't X. It's Y [high] A signature AI reframe that dismisses one thing to spotlight another.

The question isn't X. The question is Y [high] A formulaic AI reframe that redirects the reader's attention.

The secret that [industry] doesn't want you to know: [high] A clickbait AI hook that manufactures conspiracy and exclusivity.

This [tool/approach] is a game changer for [high] Formulaic hype template AI leans on to introduce tools or methods.

This isn't a tactics problem. It's a positioning problem [high] Instance of the AI negation-reframe formula swapping X for Y.

This isn't a X. It's a Y [high] Signature AI negation-reframe template used for dramatic contrast.

triadic abstract list ('the grief, the silence, the forgetti [high] Three abstract nouns as 'the X, the Y, the Z' — a top AI-poetry tic.

triadic negation 'No X. No Y. Just Z.' [high] Punchy negative-parallelism the model loves for taglines.

truly novel / highly innovative / completely unique [high] Intensifier + hype-adjective stacking; distinctive gratuitous-embellishment pattern.

Understanding [topic] is essential for [high] Mad-lib sentence stem AI uses to open explanatory sections.

Whether X or Y, [main statement] [high] 'Whether X or Y' is a formulaic AI hedging opener that manufactures false balance.

Whether you're a X or Y [high] Mad-lib inclusive opener AI uses to address every reader at once.

While X, Y is also important [high] Symmetric balancing construction; a conspicuously formulaic GPT structural habit

Worked with [department] to enhance [X] [high] Predictable AI resume template pairing a vague verb with a metric-free outcome.

X is not just A, but B [high] The 'not just A but B' escalation template is one of the strongest AI-writing tells.

you light up my [world/heart/night] [high] Near-verbatim training-data love-song formula appearing with identical structure across AI songs.

you raise a good/important point [high] Sycophantic assistant acknowledgment; a human says 'true' or 'fair'.

■ ■ ■ ■ ■ ■ ■ ■ X, ■ Y [high] Russian negative-parallelism formula ('not just a tool, but a partner'); the direct RU analogue of the English

... (ellipsis character, U+2026) [high] AI/word-processor output uses the single ellipsis glyph; a human typing in a plain field types three periods '

■■■■■1■■■■■2 [high] Repetitive explicit numbered-step scaffolding; AI defaults to formulaic step-by-step frameworks lacking natura

■■■■...■■■■■■ [high] Cliché academic-intro opener ('in recent years... has attracted wide attention') signaling AI-generated introd

'(there is) a particular kind of' [medium] Essayistic throat-clearing opener.

'a mixture/mix of [x] and [y]' [medium] AI's default way to describe an expression/emotion.

'And honestly? X' beat [medium] Faux-candid pivot both Claude and 4o over-use in casual register.

'at the end of the day' [medium] Dead-metaphor summarizer.

'deep inside/within (my soul)' [medium] Interiority padding the model adds to inflate a line.

'drowning in ____' [medium] Overwrought emotion-as-water cliché.

'Enter: X' dramatic introduction [medium] AI product/character introduction beat.

'for a (long) moment' [medium] Temporal hedge that signals 'feel something here'.

'grow/bloom through the cracks/concrete' [medium] Resilience-through-adversity nature image.

'here's the thing/kicker' [medium] Faux-conversational pivot the model inserts for rhythm.

'hold me close/tight' [medium] Default intimacy request.

'imagine a [x] where [y]' [medium] Hypothetical-world opener.

'In a world where X' opener [medium] Trailer-voice opener.

'in the quiet/silence/dark' as a place [medium] Absence-as-setting; AI loves naming negative space.

'isn't going anywhere' closer [medium] 'X isn't going anywhere' AI trend-conclusion.

'It's less about X and more about Y' [medium] AI insight-reframe scaffold.

'just [breathe/stay/be]' closer [medium] Minimalist closing line for cheap emotional weight.

'living rent-free in [my] head' [medium] Worn-out internet phrase.

'more than just' [medium] Lead-in to the elevation frame; high-frequency AI hype connective.

'not because X, but because Y' [medium] AI motive-reframe parallelism (antislop-documented family).

'set the night/world on fire' [medium] Generic party/passion hyperbole.

'sit with (this feeling/the discomfort)' [medium] Therapy-register AI phrase.

'something about (the way)' opener [medium] Hedged-mystery opener.

'somewhere between [x] and [y]' [medium] Liminal-positioning cliché.

'take it to the next level' [medium] Empty escalation cliché.

'The goal? / bottom line?' self-answer [medium] Tiny rhetorical question answered instantly — marketing-AI tic.

'the kind of [noun] that [verb]' [medium] Vague-specific framing that sounds insightful while committing to nothing.

'the only thing that mattered' [medium] AI emotional-absolutism beat.

'the way [x] [does something]' opener [medium] Reverent 'the way light falls / silence holds' opener — pure mood, no content.

'Think X, but for Y' analogy frame [medium] AI startup-pitch analogy formula.

'What makes X special isn't Y' [medium] AI differentiation scaffold.

'whether you're a... or a...' [medium] Fake-inclusive audience hedge; pads without committing.

'X. Full stop.' emphasis [medium] AI hard-stop emphasis beat.

(absolutely|definitely|truly) (recommend|love|amazing) [medium] Intensifier-plus-evaluative pattern repeats across AI reviews as formulaic sentiment injection.

(everyone|anyone) (needs?|is looking for|wants?) [medium] Hypothetical-audience targeting pattern common in AI testimonials.

I hope this helps! [\[high\]](#) Generic friendly sign-off appended to nearly every answer; survives brevity instructions per TechRadar. The re

I hope you found this helpful [\[high\]](#) Formulaic assistant wrap-up line rarely used by human writers.

I'm happy to clarify or expand on any point [\[high\]](#) Stock closing offer from chat assistants, almost never written by humans.

in conclusion [\[high\]](#) A five-paragraph-essay marker the model reflexively appends; human web/blog writers almost never literally wri

In conclusion, / In summary, [\[high\]](#) Explicitly labeling the conclusion is an essay-template reflex. A well-structured human ending is obvious with

In the end / At the end of the day [\[high\]](#) A summarizing cliché the model uses to wrap a song the way it ends an essay ('in conclusion'); the same 'wrap-

Is there anything else I can help you with? [\[high\]](#) Chatbot sign-off leaking into content is near-proof of AI assistant output.

let me know if you need any modifications [\[high\]](#) Classic AI assistant sign-off left in posts; obvious tell.

Let me know if you need anything else! [\[high\]](#) A help-desk offer of further assistance bolted onto the end; it presumes an ongoing service relationship that

Let me know if you'd like me to elaborate [\[high\]](#) Signature chatbot closing offer that leaks assistant framing into prose.

na na na / la la la [\[high\]](#) Nonsense-syllable outros the model appends to extend a chorus without writing new content; a clear sign the ly

oh oh oh / whoa oh oh [\[high\]](#) Anthem 'whoa-oh' vowel-runs are the model's go-to hook filler because the corpus is saturated with 2010s sta

Only time will tell [\[high\]](#) Cliche AI essay ending that avoids commitment.

Remember, X is a journey, not a destination. [\[high\]](#) Models close with a motivational aphorism to feel uplifting; the 'journey not a destination' cliché is a textb

The possibilities are endless [\[high\]](#) Formulaic AI closer overselling open-ended potential.

Ultimately, the choice depends on your needs. [\[high\]](#) Gemini's comprehensiveness bias makes it cover every angle then refuse to pick; detection sites note it reads

yeah, yeah / yeah-yeah-yeah [\[high\]](#) Default ad-lib the model drops into outros and chorus tails when it has run out of lines; it fills bars with z

"In conclusion" / "In summary" / "Overall" wrap-up [\[medium\]](#) Formulaic summary closer ChatGPT appends even to short text. Wikipedia lists these tidy wrap-ups as a structur

All in all [\[medium\]](#) Formulaic wrap-up phrase that signals an AI-style conclusion.

All things considered [\[medium\]](#) Stock summarizing phrase AI uses to launch a conclusion.

and I'll never forget [\[medium\]](#) Generic memory-sealing tag AI appends to choruses. It asserts emotional significance instead of earning it, an

and I'll rise / I will rise (closer) [\[medium\]](#) AI resilience songs disproportionately end on a bare 'I rise / I'll rise' tag, echoing the overused 'rise above

And so I'll keep on fighting / we'll rise again [\[medium\]](#) AI's default uplifting outro that resolves any conflict with generic perseverance ('keep fighting / rise again

and so we [rise/dance/sing] on [\[medium\]](#) Default triumphant outro; the model resolves songs with a generic '[verb] on' uplift that fits any track, a cl

And that changes everything [\[medium\]](#) Dramatic one-line payoff AI appends for false emphasis.

and that makes all the difference [\[medium\]](#) AI borrowed-Frost conclusion.

And that's just the beginning [\[medium\]](#) Formulaic teaser closer promising more, typical of AI hype prose.

And we're just getting started [\[medium\]](#) Stock momentum-building line AI tacks onto sections.

as the [night/world] fades away [\[medium\]](#) Template closer: the model resolves by having time/the world/the pain 'fade away' rather than landing a concr

baby tonight [\[medium\]](#) Catch-all line terminator combining the two most common R&B fillers; 'tonight' is a meter-completing rhyme mag

By embracing X, you can unlock Y. [\[medium\]](#) 'Embrace' + 'unlock' is a stock motivational pairing models use to wrap up with empowerment. The aspirational

By understanding X, you can Y (instructional payoff) [\[medium\]](#) Tidy 'By doing X, you'll achieve Y' wrap-up that packages a benefit. This SEO-blog closing formula is an AI de **don't let go** [\[medium\]](#) Reflexive line-ending tag the model appends to any 'holding' image; its high co-occurrence with 'hold me' make

En resumen [\[medium\]](#) Formulaic Spanish section-wrapping closer ('In summary'); mechanical AI wrap-up marker.

Feel free to reach out / Feel free to ask [\[medium\]](#) Generic open-door filler from support scripts; 'feel free to' is a high-frequency ChatGPT phrase and signals t

Feel free to reach out if you have questions! [\[medium\]](#) Stock helpful-assistant closing line that AI appends to messages and posts.

Forever and always / Forever more [\[medium\]](#) Eternity-promise tag the model reaches for to land a love song; 'forever' tokens are over-represented and the

Happy coding! [\[medium\]](#) AI tutorial sign-off.

In conclusion / To conclude [\[medium\]](#) Models default to a tidy summary conclusion even for short pieces; the explicit 'In conclusion' label is five-

in the end / through it all [\[medium\]](#) The model's default summarizing outro phrases; 'in the end' / 'through it all' wrap a song with generic resolu

In the final analysis [\[medium\]](#) Formal summing-up phrase AI uses to signal a conclusion.

into the night [\[medium\]](#) Default fade-out/disappearance closer ('we ride/dance/fade into the night'). The model's reflexive way to end

J'espere que cela vous aide ! [\[medium\]](#) Over-formulaic French sign-off ('I hope this helps!'); direct calque of the canonical English AI closer.

Let me know if you have any questions! [\[medium\]](#) Customer-service-style follow-up offer that leaks from chat mode into delivered text. The exclamation and the

let me know if you need anything [\[medium\]](#) Avoidant default offer of support AI closes sympathy messages with; puts burden on the grieving.

My time is now / this is my year [\[medium\]](#) Generic seize-the-moment declaration; AI resolves verses with a calendar-vague 'my time/my year' triumph becau

phoenix from the flames triumph closer [\[medium\]](#) AI almost always resolves a dark song with a pre-approved uplift (rise/rebirth/breaking free) in the final cho

So let it burn / Let it go / Let it rain [\[medium\]](#) 'Let it ____' surrender-tag is a top-frequency bridge-into-outro move; pairs the release frame with the most co

Tag someone who needs to hear this [\[medium\]](#) Formulaic social-media engagement-bait call to action.

The bottom line is [\[medium\]](#) Stock summarizing closer AI uses to signal a takeaway.

the road ahead [\[medium\]](#) An overused AI metaphor for the future, common in conclusions.

There you have it [\[medium\]](#) A stock AI wrap-up phrase signaling the end of an explanation.

They can't stop me now [\[medium\]](#) Default unstoppable-momentum closer for a verse/hook; AI resolves songs with this generic victory line because

This is just the beginning [\[medium\]](#) Formulaic forward-looking closer AI tacks onto conclusions.

this is my story / this is my song [\[medium\]](#) Self-referential meta-closer AI uses to wrap up because it can't generate a real resolution. Announcing the so

This is who I am / I am who I am [\[medium\]](#) Self-affirmation tag that caps generic empowerment anthems; the model produces it because identity-assertion i

To wrap things up [\[medium\]](#) Formulaic conclusion transition AI uses to signal an ending.

To wrap up [\[medium\]](#) Formulaic AI conclusion opener.

Ultimately, it is up to you [\[medium\]](#) Hedging AI closing sentence returning the decision to the reader.

We'll make it through (the storm) [\[medium\]](#) Reassurance tag that caps adversity songs; 'storm' is the model's default hardship metaphor and 'make it throu

What do you think? Drop your take below [\[medium\]](#) Social-media engagement-bait sign-off AI generates for posts.

What would you add to this list? [\[medium\]](#) Canned engagement-bait closer AI appends to listicles.

With that, we conclude [\[medium\]](#) Formulaic sign-off that mechanically announces the ending.

And that's the real X here / That's what makes it powerful [\[low\]](#) A short 'and that's the real ____' beat used to land a paragraph's point. AI leans on this faux-profound closer

as the sun comes up / till the morning light [\[low\]](#) Default all-nighter resolution line; AI closes party songs with the dawn to imply endurance. 'Morning light' r
